   uterine hemorrhage, 102
- V**  
 valley fever, 130  
 valvular damage, 159

## Subject Index

- valvular disease, 101, 278–79  
 varicella, 85, 255  
 varicella-zoster virus disease, 162, 359–60  
*Variola major*, 300  
*Variola minor*, 300, 303  
 variolation, 302–4  
 vascular spasms, 137  
 vasculitis, 137  
 vasoconstriction, 324  
 venereal diseases. *See* sexually transmitted diseases  
 venereal syphilis. *See* syphilis  
 venereal warts, 316  
 Venezuelan equine encephalitis, 36, 38  
 venom, gangrene from, 137  
 verruga peruana, 67–69  
 vertebral fractures, 237  
 vesicular rickettsiosis, 285  
*Vibrio cholerae*, 73, 74, 78  
 Victorian times, 72, 106  
 viral conjunctivitis, 231  
 viremia, 184, 259, 365  
 “virgin’s disease,” 23  
 virgin-soil epidemic, 252–54  
*virus amaril*, 365  
 virus croup, 83  
 visceral leishmaniasis, 191  
 vitamins. *See also* deficiency diseases; diet  
   B vitamins, 22, 242, 357  
   vitamin A, 121, 263, 357  
   vitamin B<sub>6</sub>, 357  
   vitamin B<sub>12</sub>, 22  
   vitamin C, 295–98  
   vitamin D, 237, 280–82, 329–30  
*vitiligo*, 250  
*vomito negro*, 365  
 von Willebrand’s disease, 55, 57
- W**  
 “water fever,” 196  
 water itch (hookworm infection), 165  
 weakness, in myasthenia gravis, 226–27  
 weaning, timing of, 262–63  
 “Weil’s disease,” 195–96  
 Wernicke’s encephalopathy, 46  
 western equine encephalitis, 36  
 West Nile virus, 36  
 Whipple, George H., 22  
 whooping cough, 360–62
- Willimas trait, 55  
 Wilson’s disease, 80  
 “Wolhynian fever,” 331  
 woollsorters’ disease (anthrax), 29–31  
 World Health Organization (WHO)  
   on African sleeping sickness, 10–11  
   cancer classification, 64  
   Global Program on AIDS, 4  
   gradations of goiter, 147  
   on horizontal health services, 10  
   hypertension classification, 169  
   influenza identification, 181  
   malaria eradication campaigns, 207  
   measles vaccinations, 212, 214  
   neonatal tetanus program, 326, 328  
   Onchocerciasis Control Programme, 230  
   smallpox eradication, 303  
   on tuberculosis, 342  
   on yaws, 362  
 wound botulism, 57–58. *See also* botulism  
 “wrist drop,” 185  
*Wuchereria bancrofti*, 125–28
- X**  
*Xenopsylla cheopis*, 61, 355  
 X-ray photographs, 341
- Y**  
*yatoby*, 343  
 yaws, 313–14, 317–18, 332–33, 362–65  
 yellow fever, 365–69  
   characteristics, 282–83, 365–66  
   encephalitis lethargica and, 115  
   eradication efforts, 369  
   hepatitis from, 171  
   similarity to Ebola virus disease, 108  
   similarity to Marburg virus disease, 207  
   similarity to relapsing fever, 276  
   transmission, 35, 36  
   vaccine, 36, 38, 173, 369  
   vector control, 37  
 Yellow Fever Commission, 369  
 “yellow jack,” 365  
*Yersinia*, 43, 93  
*Yersinia pestis*, 49, 60–62
- Z**  
*zara’ath*, 194. *See also* leprosy  
*Ziegenpeter*, 224
