Foreword	xi
Notes about contributors	xv
Part 1: Alexander Thom's life and work	
1 A personal note about my late father, Alexander Thom. <i>Archie Thom</i>	3
2 A personal appreciation of Professor Alexander Thom. <i>Hans Motz</i>	14
3 The career and publications of Alexander Thom. <i>Compiled by Archie Thom</i>	21
4 A catalogue of the Alexander Thom archive held in the National Monuments Record of Scotland. <i>Lesley Ferguson</i>	31
<i>Introduction</i>	31
<i>The catalogue</i>	34
<i>England</i>	35
<i>France</i>	57
<i>Scotland</i>	62
<i>Wales</i>	122
<i>Miscellaneous</i>	129
5 The metrology and geometry of Megalithic Man. <i>Alexander Thom & Archie Thom</i>	132

vi *Contents*

Bridging Piece

6	Megalithic landscapes. <i>Chris Jennings</i>	155
Part 2: Research papers: Archaeological research inspired by Alexander Thom		
7	‘Without sharp north...’ Alexander Thom and the great stone circles of Cumbria. <i>Aubrey Burl</i>	175
8	Investigating the prehistoric solar calendar. <i>Euan MacKie</i>	206
	<i>Introduction and background</i>	206
	<i>The solar calendar</i>	211
	<i>The Brainport Bay site</i>	213
	<i>New results at Brainport Bay</i>	215
	<i>Conclusions</i>	225
9	The stone alignments of Argyll and Mull: A perspective on the statistical approach in archaeoastronomy. <i>Clive Ruggles</i>	232
	<i>Introduction</i>	232
	<i>A case study of the application of statistical methods to alignment data</i>	233
	<i>The data</i>	237
	<i>Current interpretations</i>	242
	<i>Discussion - The statistical approach in archaeoastronomy</i>	246
10	A cluster analysis of astronomical orientations. <i>Jon Patrick & Peter Freeman</i>	251
	<i>Summary</i>	251
	<i>Introduction</i>	251
	<i>The cluster analysis program Snob</i>	253
	<i>Snob analysis of Ruggles’ data</i>	254
	<i>Discussion</i>	260
11	Megalithic observatories in Britain: real or imagined? <i>Ray Norris</i>	262
	<i>Summary</i>	262
	<i>Introduction</i>	262

<i>Contents</i>	vii
<i>Megalithic sites in Britain</i>	264
<i>What does archaeology tell us?</i>	264
<i>The implications of the astronomical hypothesis</i>	265
<i>How to make a megalithic observatory</i>	266
<i>The case for prehistoric astronomical observatories</i>	268
<i>Examples of possible megalithic observatories</i>	269
<i>The statistical approach</i>	271
<i>What is left of the astronomy?</i>	275
12 The stone rows of northern Scotland. <i>Leslie Myatt</i>	277
<i>Introduction</i>	277
<i>The distribution of stone fans</i>	278
<i>A description of sites</i>	280
<i>Comparison of sites</i>	311
<i>Conclusions</i>	317
13 Stones in the landscape of Brittany. <i>Pierre-Roland Giot</i>	319
14 The orientation of visibility from the chambered cairns of Eday, Orkney. <i>David Fraser</i>	325
<i>Background</i>	325
<i>Visibility and topography</i>	326
<i>The chambered cairns of Orkney and Eday</i>	327
<i>Method</i>	329
<i>Orientation of visibility</i>	331
<i>Discussion</i>	334
15 The Ring of Brodgar, Orkney. <i>Graham Ritchie</i>	337
16 The geometry of some megalithic rings. <i>Ronald Curtis</i>	351
<i>Introduction</i>	351
<i>Callanish (Callanish I), Isle of Lewis</i>	354
<i>Cnoc Ceann a Gharaidh (Callanish II), Isle of Lewis</i>	356
<i>Cnoc Fillibhir Bheag (Callanish III), Isle of Lewis</i>	358
<i>Ceann Hulavig (Callanish IV), Isle of Lewis</i>	358
<i>Na Dromannan (Callanish X), Isle of Lewis</i>	362
<i>Achmore stone circle (Callanish XXII), Isle of Lewis</i>	362
<i>Loch Raoinavat stone circle, Isle of Lewis</i>	364

viii *Contents*

	<i>Bernera Bridge (Callanish VIII), Isle of Lewis</i>	366
	<i>Sornach Coir Fhinn, North Uist</i>	368
	<i>Sornach a Phobuill, North Uist</i>	370
	<i>Carinish stone circle, North Uist</i>	370
	<i>The Stones of Stenness, Orkney</i>	372
	<i>Stoneyfield Cairn, Inverness</i>	374
	<i>Mudbeck Ring, North Yorkshire</i>	375
	<i>Appendix I</i>	376
17	Megalithic compound ring geometry. <i>Thaddeus Cowan</i>	378
	<i>Megalithic geometry</i>	378
	<i>Construction of cornered rings</i>	382
	<i>Rings with rounded corners</i>	385
	<i>General equal-width construction method</i>	386
	<i>Avebury: a non-equal-width ring</i>	388
	<i>Conclusions</i>	390
18	The metrology of cup-and-ring carvings. <i>Alan Davis</i>	392
	<i>Introduction</i>	392
	<i>The testing of quantum hypotheses</i>	393
	<i>Further testing of the megalithic inch hypothesis</i>	395
	<i>The Ilkley carvings</i>	400
	<i>The Northumberland carvings</i>	410
	<i>Discussion and conclusion</i>	412
19	Megalithic Callanish. <i>Margaret Ponting</i>	423
	<i>Introduction</i>	423
	<i>Astronomical indications</i>	426
	<i>Geometry and the megalithic yard</i>	431
	<i>The Dalmore Bone</i>	432
20	The Thom paradigm in the Americas: The case of the cross-circle designs. <i>Anthony Aveni</i>	442
	<i>Introduction</i>	442
	<i>Cross-circles: the data base</i>	445
	<i>Pecked cross-circles: a discussion of the hypotheses</i>	457
	<i>Conclusions</i>	468

<i>Contents</i>	ix
21 Light in the temples. <i>Ed Krupp</i>	473
<i>The dawn of archaeoastronomy</i>	474
<i>Stalking Lockyer</i>	478
<i>Solar connotations at Karnak</i>	479
<i>Solar sanctuaries at Abu Simbel</i>	483
<i>Another look at the sun</i>	483
<i>The Great Temple of Amun-Re at Karnak</i>	487
<i>The solar sanctuary of Hatshepsut's mortuary temple at Deir el-Bahri</i>	491
<i>The Sun Temple of Neuserre' at Abu Ghurab</i>	492
<i>Shedding light on the temples</i>	495
