 anecdotes 77, 78, 79
 collectivity 84
 cultural variation 81
 culture criteria/debate 70, 81, 82, 84, 85
 customs 77, 79, 80
 data scarcity 35–36, 73, 85
 frequency of traits 80
 habitual behaviour 80
 identity 85
 idiosyncrasies 79
 local enhancement/cumulative 70–71
 ratchet effect hypothesis 70–71
 social learning 81
 standardised behaviour patterns 84
 traditions 81, 82, 83
 variable aspect 81
see also apes; capuchin monkeys; humans; macaque monkeys; primatology

244 SUBJECT INDEX

- primatocentrism 56
 primatology/cultural primatology 1
 acceptance 3, 14
 acculturation concept 34
 anthropological links 33, 34, 36, 181, 191–194
 archeological links 36–39
 behavioural data scarcity 35–36
 enculturation concept 33
 and ethnoprimateology 34
 experimental methodology 44–45
 future of 190–196
 inferential methodology 36
 lessons from 162–189
 levels of data 88
 validity 7, 13
 probing, investigatory 124
 protoculture 3
 provisioning 55, 59, 91, 95–98
 aggression 96, 97
 and cross-species interaction 143, 144
 and cultural adaptation/changes 96
 disease 97
 effects 96, 97
 social density 96–97
 see also habituation
 psychology 31, 39–45, 49
 comparative 70
 cross-cultural 39
 experimental methodology/approach 44–45, 48
 imitation 41–42
 nonhuman 39, 45, 70
 and non-primate culture 50
 social learning 39, 40, 41, 42
 teaching 43–45

 races, geographical 5 *see also* diversity, intra-specific
 raiding crops 183, 188
 raiindance 123, 148, 156 *see also* motivation, religious; rites/rituals; taboo
 rank *see* status
 ratchet effect hypothesis 23, 70–71
 rats, black 17, 57
 raw materials 104–105 *see also* artefacts; branches; leaves; material culture; object use
 reciprocal grooming 134

 recognition, self 71–72
 red colobus monkey *see* colobus monkey
 reductionism 163, 164, 176 *see also* evidence; experimental work; research
 regional dialects *see* dialects
 religious motivation 149–151, 156 *see also* rites/rituals; taboo
 research
 archeology 35–36, 180–181
 cultural primatology 44–45
 ethics 183
 ethnography 99–102
 ethology 45
 experimental *see* experimental work
 future 190–194
 language as study tool 9–10, 185–186
 molecular genetics 192
 multidisciplinary approach 50, 181, 191–194
 reductionist 163, 164, 176
 see also data; inference
 rhesus monkeys 67
 rites/rituals
 chimpanzee 148, 149–151, 156–157, 159, 161
 raiindance 123, 148, 156
 rites of passage 156–157
 waterfall display 148, 156
 see also motivation, religious
 human 11–12
 see also cultural life; culture; customs; society; taboo
 roles, behavioural 26–28, 116–117, 148, 150, 152, 153, 157–159
 Rubondo site, ethnography studies, captive/released population/s 94, 183
 Rwanda 91

 sacred status, primates 34
 sandals, leaves as 125
 Sapo site
 ethnography studies, wild population/s 93
 nut-cracking 127
 Sassandra-N'Zo river, Ivory Coast 5, 33, 127
 scientific investigation, reductionist 163, 164, 176 *see also* evidence; experimental work; research

- scratch *see* social scratch
- scrub jays, social cognition 55–56
- sea-bathing, Japanese macaque 68–69
- sea otters 57
- seals 57–58
- selection, cultural *see* evolution; natural selection
- self-identification 28–29
- self-maintenance 123–125 *see also*
 ectoparasite treatment; grooming;
 hygiene
- self-medication, *Aspilia* leaves) 123
- self-recognition 71–72
- self-stimulation/tickling 125
- Semliki site
 ethnography studies, wild population/s
 93
- extractive technology, absence 128
- Senegal site
 ethnography studies
 captive/released population/s 94
 wild population/s 91, 92
- well-digging 120
- Serviformica (social ants) 53
- sex *see* gender
- shaking branches 121
- shelters *see* nests
- Siamese fighting fish 131
- Sierra Leone
 ethnography studies
 captive/released population/s 94
 wild population/s 93
- nut-cracking 127
- soaking, hot-spring, Japanese macaque 3,
 69
- social ants 53
- social behaviour, orangutan 75–77
- social cognition
 chimpanzees 131
 scrub jays 55–56
- social control 153 *see also* taboo
- social customs *see* customs; *see also*
 traditions
- social density, and provisioning 96–97
- social hunting *see* hunting
- social identity 29–30
- social interactions matrix 43
- social learning 39–42
 birds 55–57
 chimpanzee grooming 135
- chimpanzee nests 110–111
 and culture 50–53, 54, 62, 183–184
 definition 40
 experimental evidence 51, 54–55, 57,
 60
- fish 54–55
 innovative 61–62
 invertebrates 53
 laboratory evidence 54–55
 and legs 50
 local enhancement/cumulative 70–71
 mammals 57–60, 61
 mechanisms 41
 Mediterranean octopus 53
 multi-disciplinary interest 50
 non-primates 50–62
 one-to-one transmission 61
 passive observational 40
 primates 81
 psychology of 39–42
 single aspect 60
 social ants 53
 and teaching 44
 vertebrates 54–61
- social material culture 120–123 *see also*
 material culture; society
- social-organisation, fission-fusion 58,
 155–156, 166
- social rank *see* status
- social sciences approach 3, 4
- social scratch 18, 135–137
 and intersubjectivity 136
 population variations 137
- social traditions *see* traditions
- social units/groups *see* communities
- society, chimpanzee 131–161, 174
 collectivity 131, 149, 154
 eavesdropping 54, 131, 160
 ethnology 132
 hygiene 133, 134
 intersubjectivity 136
 leaf-grooming 121, 147
 social cognition 131
 variation 135
see also cultural life of chimpanzees;
 culture; customs; grooming; grooming
 hand-clasp; material culture;
 nonmaterial culture; rites/rituals;
 social scratch; taboo; tradition; vocal
 communication

246 SUBJECT INDEX

- sociobiology of culture 48
 socio-cultural anthropology *see*
 anthropology
 sociology, and non-primate culture 50
 song-learning, passerine birds 3, 55,
 56
 speciesism 152
 species-specific signatures 38–39
 sponges, leaf
 cultural criterion 18
 experimental observation 45
 modifying 129
 universal use 120
 standardised behaviour patterns 84
 standardisation criterion 18
 status 116–117, 141, 148, 150, 152, 153,
 157–159
 stone
 artefacts 105, 180
 flaked stone technology 37, 38
 handling, macaques 69–70
 stuffing, macaques 67
Strychnos spp., fruit smashing 117–118, 191
 style variations 6, 158
 stylisation 25–26, 27, 28
 subsistence, definition 111 *see also* drinking
 technology; faunivory; herbivory
 subspecies
 ethnographical analysis 89
 level of comparison 5, 7 *see also* diversity,
 intra-specific; inter-specific
 comparisons
 populations within 1, 5–6, 7
 sucking bodyparts, capuchin monkeys 66
 Sudan 91
 Sumatra (Suaq Balimbing) 75, 76
 superstition *see* rites/rituals; taboo; *see also*
 motivation, religious
 surface water phobia 159, 160
 sweet-potato washing 3, 68, 70, 80
 Japanese monkey 54–55, 63
 ratcheting 23–24, 70–71
 symbol use 20–21, 126
 taboo 148, 150, 159–160, 164
 food 34, 101–102
 human 11
 supernatural agency 159
 surface water phobia 159, 160
 violation 151–152, 159
see also cultural life; culture; customs;
 society
 Tacugama site, ethnography studies,
 captive/released population/s 94
 Tai region
 collaborative hunting 116–117, 157
 cultural repertoire 179
 drumming 122
 ectoparasite treatment 125
 ethnography studies, wild population/s 6,
 89, 93
 grooming hand-clasp 139
 nut-cracking 119, 120, 126, 174
 Tanzania, ethnography studies
 captive/released population/s 94
 wild population/s 91, 92, 93
 teaching 43–45
 anecdotal evidence 175
 cetaceans 59
 and culture 44, 166, 186–187
 defining 43
 natural selection of 43–44, 48
 nonhuman 44, 59
 and social learning 44
 and theory of mind 43
 /training distinction 43
see also transmission of culture
 technology
 birds 56
 distribution 33
 elementary/simple 103, 118, 126
 extractive technology, absence 128
 flaked stone technology 37, 38
 metatechnology 128, 129
 similarity of chimps/humans 38–39
see also artefacts; drinking technology;
 material culture; tools; weapons
 temperature regulation 3, 108
 Tenkere site
 ethnography studies, wild population/s
 93
 sandals/cushions, using leaves as 125
 termite fishing 111, 112, 113
 complementarity to nut-cracking 177,
 190
 cultural criterion 18, 19
 distribution patterns 33, 177
 history 35
see also ant dipping/fishing
 theory of mind 43 *see also* intersubjectivity

- thermoregulation
 hypothesis 108
 techniques, monkeys 3
- three corners area 33 Liberia Guinea Ivory Coast
- throwing 120, 121
- tickling 125
- tits, bottleneck removal 60
- Tiwai site
 ethnography studies, wild population/s 93
 nut-cracking 127
- tool use 3
 birds 56–57
 bottlenose dolphins 58
 capuchin monkeys 65
 chimpanzee 91, 94 (collectivity, absence 174)
 nonsocially learned 103
 stereotyped 103
 woodpecker finch, prising tools 103–104
see also artefacts; material culture; technology; weapons
- toolkits/toolsets 125, 126
- tourism 195
- toys 174–175 *see also* play
- tradition 19, 22–23, 98–99
 capuchin monkeys 66
 criteria 19, 22–23, 82, 83, 185
 cross-species (baboon/chimp) 143–147, 145
 and culture 23, 40, 163, 184–185
 defining 23, 98
 ethnography 98–99
 primates other than chimpanzees 81, 82, 83
see also cultural life of chimpanzees; culture; customs; rites/rituals; society; taboo; traditions
- training 43 *see also* teaching
- transmission of culture 170, 186
 hand-clasp grooming 45, 98
 herbivory 119
 information channels 165
 one-to-one 61
 traditional 99
 vertical 165
 within generations/horizontal 23, 99
see also teaching
- trees, using *see* branches; leaves
- ‘two action’ experiments 42 *see also* experimental work; research
- Ugalla region, ethnography studies, wild population/s 89, 93
- Uganda
 ethnography studies, wild population/s 91, 92, 93
 extractive technology, absence 128
 well-digging 120
- umbrellas, leaf 72
- uniqueness belief, human *see* humans
- units/social units/groups *see* communities
- universal behaviour patterns
 branch-clasp grooming 124, 139, 140
 branch-dragging 121
 drumming 22
 grooming 135
 human 8
 investigatory probing 124
 leaf sponge 120
 nest building 22
 shaking branches 121
 variation 22
see also diversity, intra-specific
- universalism 162, 166–168
- variation, between-group *see* diversity, intra-specific
- verbal communication *see* language
- vertebrates, social learning 54–61 *see also* birds; fish; mammals
- violation 151–152, 159
- vocal communication
 bonobos 133
 cetaceans 58
 chimpanzees 132–133
 social influences 133
- Wamba site 72, 73
- waggle dance (honey bees) 53
- wasps, parasitoid, object use 103
- water, obtaining *see* drinking technology; sponges; wells; *see also* water phobia
- waterfall display 148, 156 *see also* motivation, religious; rites/rituals; taboo
- ‘the way we do things’ 15, 24–25, 30, 84, 85
see also definitions

248 SUBJECT INDEX

- weapons
 - capuchin monkeys use 77
 - clubs 120, 121
 - missiles 120, 121
 - see also* artefacts; material culture; technology; tools
- weaver ants 115
- well-digging 120 *see also* drinking technology; sponges
- West Cameroon, ethnography studies, wild population/s 93
- whales
 - humpback whales 59–60
 - killer whales 59
 - pelagic whales 59
 - see also* cetaceans
- wheat-sluicing 54, 68–69, 80
- white-crowned sparrows, dialects 55
- wild animals, experimental work 44, 182
 - see also* research
- wild populations 92, 93
- within-species variation *see* diversity, intra-specific
- wood-boring ants, fishing for 113–114
- woodpecker finch, Galapagos Islands
 - prising tools 103–104
 - twig use 56
- working definition of culture 24–30 *see also* definitions
- wrasse 55
- xenophobia 29
- yellow baboons 143
- Yerkes Primate Centre: grooming hand-clasp (initiated by Georgia) 98–99, 139, 141
- zoogeographical barriers 5
- zoology 31, 46–48, 49
