- random utility representations, 65
definition, 65
of binary choice probabilities, 67
of interval orders, 68
of linear orders, 68
of partial orders, 69
of semiorders, 68
of weak orders, 68
- random utility theory, 7
- rational social choice, 1, 111
- representation of preference
mathematical, 7, 50, 56
- SCF, 168, *see also* social choice function
- scoring rules, 122, 194
- semioorder, 7, 56, 57, 62, 72, 80, 88, 112, 114, 115, 116, 117, 134
definition, 203
- Sen's conditions
generalized, 41, 76
- Sen's definition of
“necessary and sufficient condition,” 24
“necessary condition,” 24
“sufficient condition,” 40
- Sen's theorem
misinterpretation of, 24
- Sen's value restriction condition, 24, 25, 26, 37, 40, 41, 44, 46, 50, 51, 75, 76, 82, 85, 95, 97, 99, 103, 122, 131, 137
definition, 40, 41
generalization of, 52
violations of, 100, 101, 149
- single nontransferable vote, 111
- single peakedness, 5, *see also* Black's
single-peakedness condition
- single transferable vote, 8, 111, 195
- size-independent model, 125, 127, 128, 129, 130, 131, 133, 134, 135, 137, 139, 140, 141, 143, 144, 148, 149, 150, 151
definition, 128
- social choice behavior, 1, 2, 55, 90, 123, 191, 196
- social choice function, 4, 113, 122, 168
- social choice theory, 125
behavioral, 2
classical, 1, 9
- social homogeneity, 176
- social welfare function, 4, 39
- social welfare order, 38, 40, 46, 47, 48
- sophisticated voting, 196
- statistical sampling, 9, 155, 188
- strategic
behavior, 3, 196
decision, 197
social choice behavior, 3
voting, 28
- strict linear order, 132
definition, 203
- strict majority preference, 40
definition, 40
- strict partial order graph, 85, 115
- strict weak order, 112, 131, 132
definition, 203
- STV, 195, *see also* single transferable vote
- subset choice, 8, 95, 124, 127, 128, 130, 131, 132, 133, 134, 135, 149
size-independent model of, 130
- survey data, 12, 28, 176
- survey data set, 44
American National Election Study (ANES), 95, 113, 177, 181
French National Election Study (FNES), 102, 181, 183
German National Election Study (GNES), 181
- thermometer ratings, 8, 97, 111, 112, 113, 114, *see also* feeling thermometer
thermometer scores, 113, 114, 116, 122, 186, *see also* feeling thermometer
- threshold, 15, 65, 72, 113, 114, 115, 116, 117, 119, 121
- topset voting, 95, 96, 125, 126, 128, 132, 133, 134, 135, 147, 148, 149, 150
- topset voting model, 132
definition, 132
- total tie, 74, 75
- transitive majority preferences, 84, 95, 112, 119, 122, 130, 137, 141
necessary and sufficient conditions for, 37, 76, 77, 80, 94, 130
necessary condition for, 13
sufficient condition for, 77, 84, 112, 131
- transitivity, 4, 31, 37, 41, 99
- triple of alternatives
NB (never best), 40, 41, 42
NM (never middle), 40, 41, 42
NW (never worst), 40, 41, 42
