## Contents

<i>List of Illustrations</i>	<i>page</i> vii
<i>Preface</i>	ix
1 Introduction	1
2 Early Research on Fission: 1933–1943	12
3 The Early Materials Program: 1933–1943	24
4 Setting Up Project Y: June 1942 to March 1943	40
5 Research in the First Months of Project Y: April to September 1943	67
6 Creating a Wartime Community: September 1943 to August 1944	91
7 The Gun Weapon: September 1943 to August 1944	111
8 The Implosion Program Accelerates: September 1943 to July 1944	129
9 New Hopes for the Implosion Weapon: September 1943 to July 1944	163
10 The Nuclear Properties of a Fission Weapon: September 1943 to July 1944	178
11 Uranium and Plutonium: Early 1943 to August 1944	205
12 The Discovery of Spontaneous Fission in Plutonium and the Reorganization of Los Alamos	228
13 Building the Uranium Bomb: August 1944 to July 1945	249
14 Exploring the Plutonium Implosion Weapon: August 1944 to February 1945	267
15 Finding the Implosion Design: August 1944 to February 1945	293
16 Building the Implosion Gadget: March 1945 to July 1945	315
