- abuse 256, 257
- addiction 79–80
- aetiology – *see* causality
- affect
 - negative 30–31, 49, 273
 - positive 30
 - programmes 163–164
- affect-gating hypothesis 259
- agoraphobia 10, 11
- ambiguity (*see also* under stimuli) 32, 130–144, 222
 - and anxiety 130–144
 - and depression 130
- amygdala 18, 61, 70, 130, 150–154, 159, 160
 - lesions of 149–150, 151
- anger
 - facial expressions of 87, 88–89, 133, 151, 155
- anxiety (*see also* worry and under specific disorders) 15–17, 19–21, 68–80, 86–103
 - experience of 55, 56, 58–60, 276
 - state 61
- approach 78, 161, 163, 285–286
- attention 3, 13
 - bias – *see* under biases
 - capture 79, 80
 - disengagement of (*see also* cueing task) 80, 90, 92–97, 98–100, 102, 137, 232
 - dwell time 80, 118
 - engagement to (*see also* cueing task) 94, 100–101
 - externally focused 245
 - maintenance of 101
 - mindful (*see also* mindfulness) 4, 5, 270, 284–285, 286
 - scanning 90, 142
 - self-focused 234, 284–285
 - shifting 92
- attentional probe task 74, 93, 133, 136, 175, 181, 183
- autobiographical memory (*see also* over-general memory) 120
- automaticity 134–136, 140, 180, 222, 275, 294
- autonomic arousal 30, 33, 42, 50–51, 55, 58, 60, 61, 152, 214, 217, 218, 219
- avoidance (*see also* punishment of avoidance responses) 4–5, 16, 33, 56, 75, 257, 285–286
- behavioural 34–36, 39–41, 215, 218, 234
- cognitive 33, 34–36, 37, 39, 40, 42, 182
- defensive 78
- in social anxiety 77–79
- vigilance and 62–63, 71, 77–79, 103, 138
- awareness 278
- basal ganglia 155, 157, 159, 160
- behaviour 55, 60
 - behavioural responses 218
 - safety behaviours – *see separate entry*
- biases 17, 18, 29, 44, 55–58, 60, 109–110, 220, 221–223, 304
 - attentional bias 13, 15, 31–32, 53, 57–58, 68–80, 86–103, 156, 172–174, 175–176, 177–178, 179–180
 - encoding bias 110, 111, 224
 - interpretive bias (*see also* ambiguity) 32, 53, 57, 62–63, 121, 172–173, 174–175, 176, 178–179, 180, 183–185, 241–242
 - judgment bias 218–219
 - memory bias 3, 53, 56, 69, 99, 109
 - memory bias in anxiety 111, 112, 117, 118–120
 - mood congruent – *see under* memory
 - naturally occurring 32, 78, 181, 190, 207
 - specificity of 222
 - training of – *see separate entry under* training
