.....  
Every effort has been made in preparing this book to provide accurate and  
up-to-date information which is in accord with accepted standards and practice  
at the time of publication. Although case histories are drawn from actual cases,  
every effort has been made to disguise the identities of the individuals involved.  
Nevertheless, the authors, editors and publishers can make no warranties that the  
information contained herein is totally free from error, not least because clinical  
standards are constantly changing through research and regulation. The authors,  
editors and publishers therefore disclaim all liability for direct or consequential  
damages resulting from the use of material contained in this book. Readers  
are strongly advised to pay careful attention to information provided by the  
manufacturer of any drugs or equipment that they plan to use.
