Cambridge University Press has no responsibility for the persistence or  
 accuracy of URLs for external or third-party internet websites referred to  
 in this publication, and does not guarantee that any content on such  
 websites is, or will remain, accurate or appropriate.

Every effort has been made in preparing this publication to provide  
 accurate and up-to-date information which is in accord with accepted  
 standards and practice at the time of publication. Although case  
 histories are drawn from actual cases, every effort has been made to  
 disguise the identities of the individuals involved. Nevertheless, the  
 authors, editors and publishers can make no warranties that the  
 information contained herein is totally free from error, not least because  
 clinical standards are constantly changing through research and  
 regulation. The authors, editors and publishers therefore disclaim all  
 liability for direct or consequential damages resulting from the use of  
 material contained in this publication. Readers are strongly advised to  
 pay careful attention to information provided by the manufacturer of  
 any drugs or equipment that they plan to use.
