<i>Preface</i>	<i>page xi</i>
<i>Notation</i>	<i>xiii</i>
1 Introduction to river mechanics	1
2 Physical properties and equations	9
2.1. Dimensions and units	9
2.2. Properties of water	10
2.3. Properties of sediment	13
2.4. River flow kinematics	22
2.5. Conservation of mass	24
2.6. Equations of motion	25
2.7. Hydraulic and energy grade lines	27
3 River basins	31
3.1. River-basin characteristics	31
3.2. Rainfall precipitation	35
3.3. Interception and infiltration	46
3.4. Excess rainfall	51
3.5. Surface runoff	53
3.6. Upland-erosion losses	63
3.7. Sediment source and yield	72
4 Steady flow in rivers	79
4.1. Steady river flow	79
4.2. Steady-nonuniform river flow	97
4.3. Sediment transport in rivers	111
5 Unsteady flow in rivers	122
5.1. River continuity equation	122
5.2. River momentum equations	126
5.3. River floodwaves	130

viii	<i>Contents</i>	
	5.4. Loop-rating curves	136
	5.5. River flood routing	139
	5.6. River flow and sediment-duration curves	142
6	River equilibrium	158
	6.1. Particle stability	158
	6.2. Channel stability	163
	6.3. Regime relationships	165
	6.4. Equilibrium in river bends	166
	6.5. Downstream hydraulic geometry	170
	6.6. Bars in alluvial rivers	177
	6.7. River meandering	179
	6.8. Lateral river migration	184
7	River dynamics	199
	7.1. River dynamics	199
	7.2. Riverbed degradation	204
	7.3. Riverbed aggradation	214
	7.4. River confluences and branches	221
	7.5. River databases	226
8	River stabilization	234
	8.1. Riverbank stability	234
	8.2. Riverbank riprap revetment	238
	8.3. Riverbank protection	253
	8.4. River flow-control structures	267
	8.5. Riverbank engineering	282
9	River engineering	286
	9.1. River flood control	286
	9.2. River closure	297
	9.3. Canal headworks	306
	9.4. Bridge scour	310
	9.5. Navigation waterways	316
	9.6. Dredging	325
10	Physical river models	334
	10.1. Hydraulic similitude	334
	10.2. Rigid-bed model	337
	10.3. Mobile-bed river models	342

<i>Contents</i>	ix
11 Mathematical river models	352
11.1. Finite-difference approximations	353
11.2. One-dimensional river models	365
11.3. Multidimensional river models	376
12 Waves and tides in river estuaries	385
12.1. Surface waves	385
12.2. Tides in river estuaries	396
12.3. Saline wedges in river estuaries	401
<i>Bibliography</i>	409
<i>Index</i>	427
