978-0-521-58190-5 - Approximation Theory and Optimization: Tributes to M. J. D. Powell

Edited by M. D. Buhmann and A. Iserles

Table of Contents

[More information](#)

# Contents

<i>Preface</i> .....	vii
<i>Submitted Talks</i> .....	ix
M.D. Buhmann & R. Fletcher: <i>M.J.D. Powell's contributions to numerical mathematics</i> .....	1
A brief review of M.J.D. Powell's work in univariate and multivariate approximation theory .....	1
The contributions of Mike Powell to optimization .....	13
M.J.D. Powell's publications .....	19
I. Barrodale & C. Zala: <i>MJDP-BCS industrial liaison: Applications to defence science</i> .....	31
C. de Boor: <i>On the Meir/Sharma/Hall/Meyer analysis of the spline interpolation error</i> .....	47
M.D. Buhmann, C.A. Micchelli & A. Ron: <i>Asymptotically optimal approximation and numerical solutions of differential equations</i> .....	59
A.R. Conn, K. Scheinberg & Ph.L. Toint: <i>On the convergence of derivative-free methods for unconstrained optimization</i> .....	83
I.C. Demetriou & M.J.D. Powell: <i>Least squares fitting to univariate data subject to restrictions on the signs of the second differences</i> .....	109
N. Dyn, F.J. Narcowich & J.D. Ward: <i>A framework for interpolation and approximation on Riemannian manifolds</i> .....	133
R. Fletcher: <i>Dense factors of sparse matrices</i> .....	145
W. Gropp & J.J. Moré: <i>Optimization environments and the NEOS Server</i> .....	167
B.N. Parlett: <i>New versions of qd for products of bidiagonals</i> .....	183
M.J. Todd: <i>On adjusting parameters in homotopy methods for linear programming</i> .....	201
