grammatical constructions, 34, 227, 318, 343
n. 30
definition (Fillmore), 34
expressing information-structure
distinctions, 35, 227; see also
antitopic, clef, cum-inversum, do-
construction, left-detachment, subject-predicate, presentational,
topic, thetic, etc.
expressing speakers’ attitudes, 35, 239
expressing speech-act varieties, 35
pragmatically marked/unmarked, 29, 35
prosodic, 318
types, 34–35
grammaticalization, 10, 29, 343 n. 24
Green, G., 345 n. 18
Grice, H. P., 4, 5, 314, 346 n. 21
Gundel, J., 118, 151, 193
Gussenhoven, C., 316–318, 329, 357 n. 26
Index 381

inactivated referents, see activation states, unused referents
inferentially accessible referents, 100, 109
inflectional morphemes, see unaccented pronouns
informatics (Valdovi), 2
information, 43–50
lexical or referential, 47
vs. meaning, 43, 46, 61
non-segmentable nature, 47–49, 58, 208, 209, 221, 251
propositional, 44–50, 224
constraint on amount of, per clause, 237
relational nature, 46, 48–49, 209, 212
information packaging, 2
information questions, see WH-questions
information structure
definition, 5
and diachronic linguistics, 28, 29
examples of formal manifestation, 13–25
in English, 19–20, 24
in spoken French, 22–23
in Italian, 20–22, 24
general characterization, 1–6
interpretive views, 27–28
negative views, 1, 341 n. 1
place in grammatical system, 3, 6–13
vs. pragmatics, 4–5
prosodic coding, see sentence accent, activation, focus
and syntax, 25–31
term, 2, 341 n. 2
violation of, conventional, 135
inheritance relations
between focus-structure types, 236–237
between grammatical constructions, 40, 356 n. 13
interaction among grammatical components, 12, 24, 25, 27, 338; see also modularity
intonation, 344 n. 1, 109–111, 239
inversion
locative, 170
perceptual nature, 320
prosodic, 18, 234, 320–322
subject–auxiliary, 30, 305
constraint on cooccurring object, 170
of topical subjects in Romance and German, 342 n. 17
inverted word order
in Chinese, 178
in Turkish, see devirik cümle

iconicity of pitch prominence, 96–97, 225, 241–245, 254, 266, 312; see also onomatopoeia
identifiable referents, see identifiability
identifiability, 6, 57, 77–92, 109
number of unidentifiable referents per clause, 170
degrees, 84–85
and (in)definiteness, 79–87, 105
vs. familiarity, 77, 89
grammatical marking, 78–87, 105, 107–109, 277
via case marking, 79
via determiner, 79
via numerals, 79, 83–85
via word order, 79, 86, 347 n. 11
in Turkish, 85
and presupposition, 77–79
of referents in discourse, 87–92
and topic, 165ff.
as a universal cognitive category, 87
identification relation, 232
identificational sentences, 122, 126, 142, 222, 261, 349 n. 4; see also argument focus
vs. copular topic-comment sentences, 123
and uniqueness/exhaustiveness, 122–123
idiomaticity vs. regularity in grammar, 33–34
il-construction, impersonal, in French, 30, 92, 170, 171, 178
(il) y a-construction in French, 123, 158, 352 n. 36
implicature
conventional, 341 n. 5
conversational, 4, 160, 257, 291, 296, 328, 329, 341 n. 5
generalized, 291, 303
in focus (term), 214

Halliday, 2, 7, 12, 117, 207, 246, 287, 303, 312
Hankamer, J. & I. Sag, 269, 280
Harris, M., 354 n. 55
Hatcher, E., 169
have, presentational, 343 n. 22, 352 n. 37
Hebrew, 84
here-construction, 39–43, 169–170, 179
Hetzron, R., 177
himself, presuppositional structure, 350 n. 9, 375 n. 30
Höhle, T., 214
Hopper, P., 343 n. 24, 344 n. 1
Horn, L., 123, 291, 329, 351 n. 19, 351 n. 26, 351 n. 27
Horvath, J., 27
Hyman, L., 354 n. 55
382 Index

**it-cleft construction**, 70–71
Italian, 20–22, 24, 115, 116, 138, 143, 223, 225, 342 n. 14, 343 n. 21

Jackendoff, R., 9, 207, 208, 210, 246, 263, 270, 280, 299, 312, 318, 360 n. 57
Jelinek, E., 175, 191, 194
Jespersen, O., 50, 200, 203, 231

Karttunen, L., 155
Kay, P., 346 n. 21
Keenan, E., 156, 205, 353 n. 43
*kein*, German, and topicalization, 154
Kempson, R., 345 n. 12
knowledge, 44, 52
vs. consciousness, 93, 261, 270, 334
knowledge presupposition, see presupposition
Koenig, J. P., 356 n. 13
Koike, M., 344 n. 4
Krámisky, J., 86
Kraus, K., 349 n. 5, 355 n. 9, 358 n. 38
Kuno, S., 118, 130, 136, 138, 143, 167, 292, 344 n. 1, 353 n. 56
Kuroda, S.-Y., 139–140, 141, 143

Ladd, R., 239, 247, 248, 302, 313, 326, 356 n. 18, 358 n. 42
Lakoff, G., 282, 344 n. 5
language psychology (Sprachpsychologie), 2, 122
LaPolla, R., 237
Larsson, E., 353 n. 54
Lashley, K. S., 101
Latin, 84, 346 n. 23
left-detachment, left-dislocation, 152, 177, 181–184
in French, 126, 138, 158, 292, 293
and topic establishment, 181ff., 204
and topic shift, 183, 184
vs. topicalization, 194–195, 353 n. 48
see also TOP constituent
Levi, D., 67
lexical vs. pronominal coding of referents, see pronominal
Lexical Functional Grammar, 13
Li, C. & S. A. Thompson, 12, 24, 118, 351 n. 21
Liberman, M., 356 n. 15
lie-test (Ertesihik-Shir & Lappin), 52, 59, 63, 216
listing interpretation of identifiability sentences, 123

of there-sentences, 344 n. 7
l’un(e), French, 84–85
Lyons, J., 350 n. 15, 352 n. 29, 360 n. 53

“Mad Magazine” sentences, 32, 35
Malagasy, 205
Malay, 83
*man*, German, 95
marked/unmarked
-- activation state of referents, see accented/unaccented constituents
-- focus structure, 296–322
-- information-structure sequence, 15
-- members of pairs of allsele rents, 17
-- presuppositional structure, 64, 67–68
-- sentence-accen t position, 15, 17, 20
-- word order, 15, 17
-- markedness, 15–18, 98
distributional, 17, 18, 360 n. 53
formal, 360 n. 53
lexical, 306
in prosody, see accented/unaccented constituent
cognitive value of marked patterns, 18
semantic, 360 n. 53
syntactic, 15–16, 29, 126, 280, 305
Marty, A., 139, 154, 349 n. 5
Mathesius, V., 12, 138
Matsumoto, Y., 350 n. 10
Maxim of Quantity, 159
meaning
-- vs. denotation, 37
-- lexical vs. relational, 37
-- propositional, 15
-- conversational, 15
-- memory, 76
-- and identifiability, 88
-- short-term, long-term, 93–94, 268, 280
Michaelis, L., 343 n. 30
Mithun, M., 191, 199, 200, 201
modularity in grammar, 27
Morgan, J. & M. Sellner, 341 n. 1
motivation in grammar
-- vs. arbitrariness, 255, 320
-- vs. autonomy, 26–29
-- pragmatic, 24, 25, 29, 41, 43, 116, 338
-- vs. prediction, 29, 320, 343 n. 25
-- semantic, 116
-- movement rules, 1, 341 n. 1
naming function of lexical noun phrases, 186–187
natural topic hierarchy, 168
negation
-- and markedness, 64
-- in argument-focus sentences, 64
Index 383

and presupposition, 62–64
and topic, 153–155, 291
and topicalization, 154
within-frame vs. cross-frame negation (Fillmore), 351 n. 27
neutral descriptions (Kuno), 138, 143
“new/old information”, 45–50, 51–52, 210
vs. new/old referent or denotatum, 48, 50, 258, 348 n. 18
see assertion, focus, presupposition
news sentences (Schmerling), 138, 267
news value, 344 n. 9
nominalization, 75
correlation with presupposition, 76
non-compositionality of cleft constructions, 230
non-recoverable pragmatic relation, 325
see also focus relation
non-subjects as topics, 146–147, 200
normal intonation, 338
normal stress, 255
noun phrase, lexical
accented, with active referent, 97
case marking, 187
correlation with focus function, 262
correlation with object function, 262
naming function, 186–187
referring vs. relational function, 184–188
role in the canonical sentence model, 189
role in presential clauses, 178
unaccented, 95, 324
unmarked for activation, 98, 106
see also pronominal vs. lexical coding
Nuclear Stress Rule, 267, 312, 331
null anaphora, pragmatic constraints on, 135–136
null instantiation of arguments, 136
null subjects, 191
numerals as identifiability markers, see
identifiability

object
correlation with focus relation, 42, 169, 262
correlation with inactivity, 262
correlation with lexical coding, 262
topical, 146ff., 161
accented, 332
pronominal, 175
Ochs, E., 136
Ochs Keenan E., & B. Schieffelin, 353 n. 42
O’Connor, M. C., 357 n. 28
“old information”; see new/old information
one, 80, 106, 249
onomatopoeia, 243
oratio perfecta, 189

Partee, B., 347 n. 2
Paul, H., 2, 12, 349 n. 5, 351 n. 18, 353 n. 51,
353 n. 52, 355 n. 9, 358 n. 38
Payne, J. R., 153
Perlmutter, D., 167
phrasal accent, see accent, General Phrasal
Accent Principle
Phrasal Focus Rule (Selkirk), 315, 321
Fierrehumbert, J., 356 n. 15
pitch prominence, see sentence accents
placeholder in generative grammar, 27, 313
polarity, 236
possessive, see determiner
possessor advancement in German, 256, 357
n. 27
pour ce qui est de NP, French, 182
pragmatic construal of discourse referents,
101–105, 267
via contextual clues, 101–102
delayed construal, 102
in antitopic construction, 102
via frame inferences, 103–104
pragmatic relation, 127
establishment, 323, 326, 328
see also properties vs. relations in
information structure
Pragmatic Universe of Discourse
(Kempson), 56
pragmatics, 2, 4, 7
conversational pragmatics, 4, 5, 56
discourse pragmatics, 2, 4, 5
vs. information structure, 4
lexical pragmatics, 4
Prague School of Linguistics, 2, 6, 12, 117, 138
predicate
and activation state, 264–269, 280–282, 298
concept, 222, 230–233
vs. comment, 121
existential, 180
and “new information”, 47–50, 111,
231–232
pragmatic, 231, 304, 358 n. 38; see also
subject, pragmatic
presentialational, 143, 180, 314, 349 n. 30,
351 n. 21, 352 n. 37
pronominal, 76
psychological, 122, 355 n. 9
and reference, 75, 267–268
semantic, 230, 231, 279, 304
traditional definition, 121
as topic, 76
unmarked for activation, 264–269, 278,
280–281, 315, 321
weather, 140, 141, 174
predicate (continued)

see also subject–predicate sentences, comment

predicate-accented sentences, 304, 322, 331
predicate focus, see focus structure
predicating vs. presentational sentences, 177, 180–181
predictable/recoverable relation, see topic relation
predictability in grammar, see motivation
preemption, 256, 310
preferred-clause construction, French, 25, 30, 165
preferred topic expression, 172ff., 186, 201;
see also unaccepted pronominal
presentational articulation, 350 n. 8
diegetic vs. existential, 179
in Chinese, 180
and event-reporting sentences, 143–144
and indefinite subjects, 143, 168
processing implications, 185ff.
semantic role of subject, 180–181
pseudo-agentive, 181
see also here-construction, there-construction
présumposé (Ducrot), 345 n. 12
presupposed, misuse of term, 53, 151; see also proposition
presupposition, existential, 53, 78, 154–155
of topic referents, 154–155
presupposition, pragmatic, 6, 14, 48, 61–78
and activation, 229, 269–286
cancelling of, 155
in Chomsky-Jackendoff tradition, 280
consciousness presupposition, 53–54, 56, 104
textually evoked, 57
creating or making of, 66–70
definition, 52, 60 (Stalnaker)
and focus relation, 279–280
in the presupposition (term), 151, 214
knowledge presupposition, 52–53, 56
grammatical marking, 277
layered, 220, 354 n. 4
lexicogrammatical expression, 55–57, 60, 65, 227
and negation, 62–64, 152–153
relevance presupposition, 54, 56, 150–151, 167, 262
speaker presupposition (Stalnaker, Kempson), 345 n. 12
within focus domain, 218, 253, 269–280
presupposition, semantic or logical, 61–64
see also proposition

presuppositional situations, 65
presuppositional structure, 65–73
accommodation of, 65–71, 103–104
of adverbial clauses, 67–69, 125, 346 n. 23
of definite NP, 53, 227
of possessive NP, 91–92, 227
of pronouns, 98, 106; see also pronouns
topicalization construction, 161–163
of verbs of judging, 70, 346 n. 25
unmarked, see markedness
of WH-questions, 282–286
preverbal vs. postverbal position of constituents, 40–43, 86–87, 128, 138, 146, 227; see also inversion
Principle of Predicate-Focus Interpretation, 304, 309
Principle of the Presumption of Ignorance/
Knowledge (Strawson), 46, 51, 60, 119
Principle of Relevance (Strawson), 119
Principle of the Separation of Reference and
Role, 184–191, 203, 238, 252, 268
analogical with thematic–categorial
distinction, 188
and canonical sentence model, 189ff.
Principle of Subject–Object Neutralization in
sentence-focus constructions, 321 n. 54
Principle II (Schmerling), 266
Pro-Drop parameter, 190–191
pronominal vs. lexical coding of referents,
95, 96–98, 107–109, 173, 262, 280
syntactic differences, 172–173
pronominal–argument languages, 191
pronouns
accented vs. unaccented, 115–116,
172–173, 260, 323
cooccurrence in single clause in French,
175
bound or atonic, in French, 356 n. 20
case marking, 187
indefinite, 156
marked for activity, 98, 106
role-oriented function, 187
topic pronouns vs. focus pronouns, 115–116, 175, 260
see also pronominal coding of referents,
unaccented pronouns
properties vs. relations in information
structure, 49, 76, 112–116, 127,
160–161, 163–164, 258, 273, 274, 323;
see also activation state vs. pragmatic relation
propos vs. thème, 351 n. 18
proposition, 43, 53
vs. denotatum of proposition, terminology, 53
knowledge of, 44
pragmatically structured, 6, 52
presupposed activation status, 271, 277–280, 281
complete or saturated, 270–277
functioning as argument, 218, 277
focal, 273
open or incomplete, 122, 229, 277–282
prosody, prosodic, see sentence accent pseudocleft construction, see WH-cleft construction
quant d, French, 182
question-answer test, 121, 134, 150, 297
really, presuppositional structure, 346 n. 26
reciprocal accent pattern (Ladd), 326–327
recoverable referents, 348 n. 18
reference-oriented vs. role-oriented expressions, 187, 190, 199, 201
differences in grammatical behavior, 187
referent, 37
vs. mental representation of referent, 37–38, 74
see also discourse referent
cenital files, 77
referring expression, 75, 156; see also noun phrase, definite description
regular stress rules, 247, 312; see also normal stress
Reinhart, T., 118, 127, 129, 149, 150, 151, 156, 196, 257
relations vs. properties in information structure, see properties vs. relations relative clause
assertive, 23, 234, 345 n. 14
appositive, 23
in bi-clausal presentational construction, 180
restrictive, 23, 51–56, 274
and topic, 130, 350 n. 10
see also presuppositional structure
relative pronouns as topic expressions, 129, 130, 186, 234, 350 n. 11
relevance, 44, 119
relevance presupposition, see presupposition representations, mental, 37, 43
of referents, 37, 38, 49, 74–116
of the world, 44–45
resumptive pronouns, 182, 352 n. 39
diachronic reanalysis as agreement markers, 192
Revised Focus Rule (Ladd), 247
rhetorical question, 283
right-detachment or right-dislocation, see antitopic
Right-Roof constraint, 354 n. 57
Rivarol, 199

scene-setting expressions, see topic
Schachter, P., 130
schema, 99; see also frame
Schmerling, S., 138, 266, 267, 287, 318, 346
n. 19, 351 n. 21, 356 n. 18, 357 n. 33
Selkirk, E., 208, 239, 243, 263, 267, 315–316,
318, 329, 331–333, 356 n. 18
semi-active referents, see activation state, accessibility
sentence (term), 222
sentence accent (prosodic accent), 94–98,
238–257
A-accent vs. B-accent, 360 n. 57
on constituents expressing presupposed propositions, 269–280
default, 21, 25, 248–257, 266, 271, 279,
294, 312, 324
on function words, 253–254
general function, 208, 263, 323–325
oxytonic, in French, 25, 356 n. 20
and activation state, 95–99
phrasal, 246ff.: see also General Phrasal Accent Principle
position
fixed vs. flexible, 25, 240, 320
determined within system of contrasts, 255–257, 319, 339
determined grammatically, 243–248
determined iconically, 241–242
on verb phrase, 296, 304
on predicates (verbs) vs. arguments (nouns), 264–269, 278
relational nature, 240, 325
secondary, 234
386 Index

sentence accent (prosodic accent) (continued) and semantic weight, 266
