

Index

Compiled by Judith Lavender

- academic disciplines, impact on
 performance, 78–81
- affordance, 98
- age, impact on problem solving, 25
- agency, 93
- appropriation of cultural tools, 12
- art, performance in context of, 78–81
- artefacts, 96
see also computers; tools
- associationist learning theory, 27–8
- attunement, 98
- balance beam studies, 22–4, 25–6
- Bruner, J., 9
- Buckingham, N., 5–6
- Burnham, W., 74
- CAI (computer-assisted instruction), 27, 28, 31
- Cazden, C., 11
- Charbonnier, E., 77
- children, viewpoints of, 97–9
- coaching
 in Tower of Hanoi studies, 17
see also instruction
- coactive working, 65, 66, 67, 68, 69
see also peer presence
- code-breaking problems *see* Mastermind studies
- cognition
 development as social process, xvi–xvii
 impact of peer interaction on
 development, 2–5, 9, 10–11
 interactive approaches to, 92–3
 social-cognition approach, xiii–xiv
see also thinking
- cognitive conflict *see* socio-cognitive conflict
- collaborative learning
 balance beam studies, 22–4, 25–6
 with computers, 30–1
 cultural context of, 93–6
- and gender, 54–5
 Honeybears studies, 45–9, 50–1, 59
 King and Crown studies, 36–9, 40–1, 42, 50
 Mastermind studies, 20–2, 25
 mediating role of computer, 96–7
 overview of, 25–6, 91–2
 symmetry in, 45–8
 talk in *see* verbal interaction
- theories of, xiv–xv
- Tower of Hanoi studies, 14–20, 25
see also groupwork; mixed-sex groups;
 peer interaction; same-sex groups
- computer games
 context of, 84–9
 macho culture of, 53
- computer programming, 29, 31
- computer software
 contrast studies and gender, 60–4, 70–2
 gender stereotypes in, 53, 58–60, 71–2
- computer tasks
 balance beam studies, 22–4, 25–6
 development of, 32–3
 game versus test contexts, 84–9
 Honeybears studies, 43–51, 58–9, 60–4, 65–6, 67, 70
 King and Crown studies, 33–42, 50, 56–8, 60–1, 63–4
 Mastermind studies, 20–2, 25
 Pirates studies, 61–4
 Princesses study, 67
 Tower of Hanoi studies, 18–20, 25, 83–4
- computer tests, context of, 84–9
- computer-assisted instruction (CAI), 27, 28, 31
- computers
 associationist approach to, 27–8
 collaborative approach to, 30–1
 constructionist approach to, 29–30
 context of use, 81–9, 97
 in education, xv–xvi, 27–31

- and gender: attitudes, 52, 66–7, 69–70, 71; context, 81–9; performance, 56, 58, 59, 61, 62, 65–6, 69–71; styles, 53–4, 65–6; usage, 53, 88
 group use of *see* collaborative learning
 growing interest in, 26, 27
 mediating role of, 96–7
- concrete operations tasks, 3–4
 conflict *see* socio-cognitive conflict
 conservation judgements
 Perret-Clermont's work on, 4–5
 problems of standard tests on, 5–6
 constructive approach, 2–5, 29–30
 context
 of collaboration, 93–6
 computer and manual, 81–4
 disciplinary, 78–81
 of performance, 97–9
 contingent strategies, 9–10
 Cooper, J., 71
 Cottrell, N., 75
 cultural context of collaboration, 93–6
 cultural learning, theories of, xiv–xv
 cultural psychology, xvii
see also socio-cultural approach
 cultural tools, 11–12
- decentration, 2–3
 developmental psychology
 nature of, 99–100
 social comparison in, 73
 disciplines, performance in context of, 78–81
 Doise, W., xvi, 3–4
 Donaldson, M., 5
 Durkin, K., 73
- education
 increasing use of computers in, xv–xvi, 27; role of psychology in, 27–31
 educational software
 contrast studies and gender, 60–4, 70–2
 gender stereotypes in, 53, 58–60, 71–2
 Edwards, D., 10
 experimental research
 context of, 95–6
see also computer tasks
- feedback, impact on performance, 74, 76–7, 78
 Festinger, L., 73
 Flett, G., 73
 Forman, E., 11
 friendship, impact on productivity, 24–5
- Gabrenya, W., 77
 Gallimore, R., 8, 9
 games
 gendered performance in context of, 84–9
 macho culture of, 53
 gender
 attitudes to computers, 52, 66–7, 69–70, 71, 88–9
 peer interaction in learning, 54–5
 performance with computers, 56, 58, 59, 61, 62, 65–6, 69–71; contextual influences, 81–9
 software contrast studies, 60–4, 70–2
 stereotypes in software, 53, 58–60, 71–2
 style of computer use, 53–4, 65–6
 usage of computers, 53, 88
see also mixed-sex groups; same-sex groups
 groups
 Gorsuch, C., 6
 groupwork
 move towards, xv
 and use of computers, xv–xvi
see also collaborative learning; mixed-sex groups; same-sex groups
- Hall, J., 71
 Hassan, R., 76
 Hedley, J., 76
 history of experience, 93
 home computers, gendered use of, 53
 Honeybears studies
 collaborative work on, 45–9, 50–1, 59
 features of, 43–4
 gender influences in, 58–9; peer interaction, 65–6, 67, 70; software contrasts, 60–4
 impact of peer presence, 49–50, 51
 Huff, C., 71
 Huguet, P., 74, 75–7, 78
 Humphreys, J., 83–4
- identity construction, link with thinking, 99
 individual working *see* coactive working; peer presence
 instruction
 computer-assisted, 27, 28, 31
 intelligent tutoring systems, 28
 in Tower of Hanoi studies, 16–17
 intellectual development, as social process, xvi–xvii
 intelligent tutoring systems, 28
 interaction *see* peer interaction; social interaction

118 Index

- Joiner, R., 71
 justification, in balance beam studies, 23, 24, 25–6
- King and Crown studies
 collaborative work on, 36–9, 40–1, 42, 50
