

## CONTENTS

<i>Preface to the First Edition</i> . . . . .	<i>page</i> vi
<i>Preface to the Second Edition</i> . . . . .	vii
<i>Preface to the Third Edition</i> . . . . .	viii
<i>Abbreviations</i> . . . . .	ix

## FIRST PART. PRINCIPLES

<i>Chap. I. Introductory remarks</i> . . . . .	1
I. Axioms and preliminary theorems . . . . .	9

SECOND PART. DISTRIBUTIONS IN  $R_1$ 

III. General properties. Mean values . . . . .	18
IV. Characteristic functions . . . . .	24
V. Addition of independent variables. Convergence "in probability". Special distributions	36
VI. The normal distribution and the central limit theorem . . . . .	50
VII. Error estimation. Asymptotic expansions . . . . .	70
VIII. A class of stochastic processes . . . . .	89

THIRD PART. DISTRIBUTIONS IN  $R_k$ 

IX. General properties. Characteristic functions . . . . .	100
X. The normal distribution and the central limit theorem . . . . .	109
<i>Bibliography</i> . . . . .	115
<i>Some Recent Works on Mathematical Probability</i> . . . . .	118
