
Index

- additive problem, 1
 affine transformation, 76
 algebraic variety, 94
 Artin's conjecture, xiii
 Ax, xiii

 Baker, xix
 Bentkus, xix
 bilinear form, xiv, 86
 Birch, xiv, xvi, xvii, 69, 71, 120, 133
 Boklan, x
 Brauer, xiii, 68, 120
 Brüder, xviii, xix

 Cassels, 75
 character, 33
 Chevalley, 114
 Chowla, 32, 125
 complete exponential sums, xvi
 completing the square, 67
 cone, 50
 congruence condition, 42, 49
 convex body, 76
 Cook, xviii, xix
 cubic forms, xiv, 85

 Danicic, 132
 Davenport, ix, x, xii, xiv, xvii–xix, 5,
 49, 58, 85, 125, 132, 133
 degenerate, 68
 Deligne, xvi
 density, 23
 diagonal, 123
 dimension, 94
 Diophantine approximation, 16
 Diophantine inequality, xvii, 125
 Dirichlet, 16, 22
 divisor function, 10
 equations
 additive homogeneous, 45, 63
 additive non-homogeneous, 1, 3, 39
 bilinear, 92
 cubic, 68, 85, 119
 general homogeneous, 67
 system of, 69, 120
 Eskin, xx
 Estermann, xviii
 Euler's integral, 22

 Ford, x
 form, 67
 Fourier's integral theorem, 22
 Freeman, xix, xx

 $g(k)$, 3
 $G(k)$, ix, 4
 $G^\#(k)$, x
 $G_{\text{asympt}}(k)$, xx
 $G_{\text{ineq}}(k)$, xix
 $\Gamma(k)$, xi, 32
 Gauss sum, 34
 generating function, 4
 geometry of numbers, 75
 Goldbach's ternary problem, 1
 Götze, xix

 $h(C)$, 111
 Hardy, 1, 3, 7, 32, 37, 38, 58
 Hardy–Littlewood asymptotic formula,
 xv
 Hasse–Minkowski theorem, xiii
 Heath-Brown, x, xvi
 Heilbronn, ix, xvii, 51, 125
 Hessian, 92
 Hilbert, 3
 Hooley, x, xvi
 Hua, ix
 Hua's inequality, 12
 Hurwitz, 3

Cambridge University Press

0521605830 - Analytic Methods for Diophantine Equations and Diophantine Inequalities,
Second Edition

H. Davenport
