

INDEX

- aggression, 33
 agriculture *see also* farming
 agricultural buffering strategies, 57–8, 68–80, 87–97
 agriculturally dependent societies, 59
 agropastoralism, 81, 83
 animal husbandry and, 57, 58, 59, 66, 67, 73
 cash cropping, 67, 85, 88, 89, 118
 crop disease, 61, 63, 72
 crop storage, 58, 61–2, 65, 75–6
 crop yields, 5, 61, 63, 72, 73, 90, 98, 116
 cycles in, 57, 58, 59
 diversification in, 58, 72, 83, 90, 117
 failure in, 58, 59, 61, 63, 64, 65–6, 72, 73–4, 75, 78, 79, 80, 93, 95, 98, 101, 102, 104, 111, 112, 115, 117, 118, 120
 fishing and, 65
 in the Great Lakes Region, 63–6
 hunter–gatherers and, 60, 65
 intensification of, 77, 99, 116
 labour and, 72, 75, 77, 78, 90, 99, 109, 116
 mixed, 71, 72, 81, 117
 in modern Greece, 87–97
 in the New World, 59, 66–7
 Plains, 60–4
 polycropping, 90, 91, 97
 reliability of, 59
 root crops, 79
 sedentism and, 58, 81, 84
 seed crops, 98
 specialised, 60
 spread of, 66, 67
 storage, 58, 61–2, 65, 75–6
 subsistence on, 57, 59
 surplus and, 45, 117
 systems, 57, 58, 59–60, 62, 65, 66–7, 88, 116
 taxation on, 88
 territoriality and, 58, 59, 66, 99
 use of wild resources and, 58–60, 66, 67, 72, 75, 78, 113
 viticulture, 117
 agropastoralism, 81, 83
 Ainu, 45, 48
 Algonquin Indians, 65
 Allan, W., 70
 alliance
 Eskimo, 8, 20, 31, 34, 36
 inter-regional, 20, 34, 36, 38
 marriage, 74
 storage and, 56
 Archaic Period
 in Greece, 99, 101, 102
 in North America, 67
 Arikara Indians, 62
 armour, 31, 33, 34
 Athabaskan Indians, 31, 33, 34, 36
 begging, 90, 95
 Bemba, 74
 Binford, L., 48, 49
 bronze, 99
 Bronze Age
 access to copper in, 126
 centralised production in, 77
 Greece, 69, 71, 77, 97
 mass capture technology in, 55–6
 mixed crops in, 72
 redistributive economies in, 125
 surplus in, 125
 buffering mechanisms, 1–7, 123–6
 combining, 38, 87, 90, 124
 compatibility of, 124
 costs of, 95, 118, 120
 cross-cultural nature of, 90
 culture and, 5, 38, 95, 96, 124
 demography and, 66, 124
 effectiveness of, 118, 120–1
 efficiency of, 6, 58, 66, 87, 89, 90, 93
 emergency, 90, 95
 evolutionary significance of, 90
 hazard response mechanisms, 90, 95, 96, 97
 hierarchy of, 10, 64, 90, 95, 96, 124
 high level, 4, 5–6, 90, 93, 95, 96, 99, 100, 101, 124, 125
 household level, 73, 76, 77, 78
 ideology and, 8, 124
 low level, 4, 5–6, 90, 93, 95, 96, 100, 124
 predictability of, 2, 5
 scale of response, 4, 5–6, 7, 9, 87–8, 90, 93, 95, 96, 99, 100, 101, 105, 124, 125
 social change and, 5, 6, 96
 social organisation and, 115
 stability of, 96–7
 state level, 96–7
 technology and, 8, 124
 buffering strategies
 combining, 90, 123
 community level, 10
 effects of social distance on, 123
 efficiency of, 5, 59
 flexibility of, 65
 hierarchy of, 124
 household level, 10
 implementation of, 10
 implications of
 empirical, 6, 78
 heuristic, 6, 78
 theoretical, 6, 78
 population size and, 4, 5
 productivity and, 20–1
 scale of, 10, 18, 90, 123, 125
 socio-cultural context of, 10, 38
 spatial, 58
 stability of, 5–6, 66
 technology and, 4, 5, 38, 124
 undermining of, 85
 Bug–Dniester Culture, 53, 59
 burial practices, 100, 102
 Bushmen, 4
 caches, 31, 32, 34, 36, 48, 50
 caribou
 climate and, 12–13, 14, 15, 21
 concentrations of, 11–12, 26
 herd size, 16, 26, 30, 32, 35

- hunting, 8, 12, 29, 31, 32, 34
inua, 19, 20
 migration, 11–12, 33, 34, 35
 subsistence on, 11, 24, 27, 28, 32, 33, 35, 37
 variability in, 12–13, 14, 15, 17, 21, 26, 28, 29, 30, 32, 34, 35, 36, 37, 42, 45, 46–7
 carrying capacity, 42
 Central Plains Tradition, 63
 centralised administration
 administrative seals, 107, 112
 of agricultural production, 109
 archaeological evidence of, 107, 108, 109, 112
 crisis mitigation through, 103
 of food supply, 104–5, 114–22
 of surplus, 119
 variability in, 106, 112
