References with italicised page numbers are to chapter sections so titled.

adequacy, criterion of 112, 115, 119
afterlife, betting on 31, 39
Aitchison, J. 50
asymmetry 114
asymptotic property of CBQs 162
Ayer, A. J. 53
Ayers, M. R. 53, 54, 65

Bayesian inference 22
Bayesianism 147–50, 167
Bayesians and the limits of coherence *45–9*
Bayes' theorem 46–7, 147
belief (*see also* partial belief)
  and partial belief *4–7*
  and betting *31–9*
  the nature of *12–16*
Bennett, J. 117
Bertrand's paradox 139–45
bet
  conditional 72
  direction of 36
betting
  applicability of 31, 139
  and belief *31–9*
  odds 7, 29, 34–7, 40
  on an afterlife 31, 39
  on chances 57, 60
  quotient 29, 40 (*see also* CBQ)
  situations 12
  stake 34
bias 175
  and ignorance *129–36*
  in coins 165 (*see also* coins)
birth 55, 152
Borel, E. 24–6
Braithwaite, R. B. 11, 51–2, 57–8, 67, 78, 102–3, 147
Briareus model 57
Bridgman, P. W. 76–7, 106, 107–8
Brodbeck, M. 108–9
brute frequencies 154

calculus, probability: *see* probability calculus
Campbell, N. R. 114, 119
Cargile, J. 107
Carnap, R. 19, 40, 53, 76–8, 80
causal explanation 45–6, 49
causality 151
causal link, weak 158
CBQs 40, 45–8, 52–5, 62, 72, 160
  asymptotic property of CBQs 162
chance xi
  betting on 57, 60
  conflicting 60–1, 72
  defined in a hypothetico-deductive system 57
  distribution 83, 86–9, 98–100, 101
  equal 136
  and propensities *70–6*
  set-up: *see* set-up
  subjective surrogates for *22–6*
  and trials *58–62*
classical education, lack of 175
classical probabilities *136–46*
coherence *40–5*
  Bayesians and the limits of *45–9*
coherent betting quotient: *see* CBQ
coins 1–3, 9, 10, 16–17, 60–1, 70–2, 124ff., 145, 146–50, 153, 172
  bias of 122–6, 129–36, 165ff.
  and the Mint 133
collectives 51–3
Collinson, A. J. L. 97
compound event 137 (*see also* conflicting chances)
conditional bets 47–9
conditional quotients 47–9, 167
conditional regularities 63
conditionalisation 46–9
conflicting chances 60–1, 72
conflicting criteria 111, 112

More information

connectivity *114–21*
  and classical propensities 122–50
  principle of 90, 110, 114–21, 171–4
conviction 11 (*see also* sincerity)
Cramér, H. 55
criterion of adequacy 112, 115, 119

death 73
  frequency of 92
death rate 84, 91–2
death risk and physiological age *83–97*
decay 60, 109 (*see also* half-life)
  chance of 97
  frequency of 100
decay constant 97
decay risk 90
deductivism 108–9, 115–16
de Finetti, B. 4, 17, 23, 45, 46, 50
Delaney, P. C. 97
descriptive universalisability 119–20
determinism xiii, 51, 97
  and the laws of nature 151–75
dice 59–60
displays 7, 15, 63, 70
  and dispositions *76–82*
dispositional laws 172
dispositional properties 89, 169, 171
dispositions xii, 1, 12, 63–6, 66–70, 72–4, 89–90, 101
  and displays *76–82*
  one operation 78
  statistical 98
  testable 76
Duhem, P. 108
Dutch book argument 41–3, 47–9

electrical measurement 128–9
entertaining a proposition 6, 13–14
equipossible alternatives 138
  infinite primary sets of 139
errors 101
Euler's theorem 115
events 58–62
  active 68
evidence 2, 19, 50, 168–9
explication 37–9

fair betting quotient 40 (*see also* CBQ)
Feigl, H. 78, 105
Feller, W. 55, 57, 91, 160
Feyerabend, P. K. 109
Flew, A. 62
fiducial argument *146–50*
Fisher, R. A. 146–7
fluid mechanics, continuum theory of 156
force of mortality 85–6
fragility 67–8, 71, 171–2
frequencies 17, 29, 50–1, 81, 96, 153ff.
  brute 154
  long run 68
  relative 51, 69–70
  and trials 50–62
frequency theory of statistical law 158ff.
frequency undefined in infinite classes 51–2
frequency analysis 50–62
frequency theory xi,
frequentism 84, 91
frequentists 2–3, 28, 73, 77
full belief 3 (*see also* belief)

gas laws 123–4, 154–5
gas vessel as coin analogue 127–8
Geach, P. 171
Giere, R. N. 50
Gompertz, B. 84
grue 170

Hacking, I. 2, 25, 59, 61, 67–8, 71, 73, 75, 146, 168
half-life 25, 31, 97–100, 119
Hempel, C. G. 53, 77–8, 108
horse racing 60–1
Hume, D. 54, 117, 157

idealisation of the betting situation 31, 37
ignorance
  argument from 122, 135, 136
  and bias *129–36*
imprecision 38
  conceptual 106–8
  and inexactness 101–21
incoherence: *see* coherence
incommunicability of sensations 8–9
inconsistent beliefs 44
indifference 12
  principle of 122, 129, 138, 146
induction 42, 174
inexactness *110–14*
  and imprecision 101–21

Jeffrey's cat 4, 5, 6, 13
Jeffreys, H. 138
Jones, H. B. 84–6, 91, 92, 95, 96

Keynes, J. M. 19, 137
Kneale, W. 2, 3, 11, 23, 27, 54, 71, 81, 136–46
knowledge as reasonable true belief 162ff.
Koopman, B. O. 27
Körner, S. 111
Kyburg, H. E. 51, 53
  and Smokler 57

Lakatos, I. 115, 116
Laplace, P. S. 128, 129, 131–2, 135, 138, 145, 146–7, 165
large numbers
  laws of 55–6
  strong law of 160ff.
law cluster 105
laws of co-presence 170ff.
Levi, I. 79
Loéve, M. 51
logical probability statements 2
lottery paradox 162

map-making 143
mass, Newtonian concept of 38
measurement
  of length 43
  of partial belief 7, 12ff., 27–49
  of partial belief by odds 15
mistake hypothesis 117
Monro, D. H. 120
mortality 170–1
  force of 85–6

Nagel, E. 108
natural laws 157–75
natural necessity *157–75*
Neyman, J. 104

objective chance 17, 163
objective probability 18–19, 71
objectivism 50, 139
  of usage *18–22*
objectivity 2, 22, 132, 136
  of partial belief 8–9
  subjective surrogates for 24
occurrence account of belief 13–14
odds: *see* betting
operational definition 74–6, 102, 104, 110, 115, 117
operational imprecision 101ff.
operationalism 50–1, 74, 76, 77, 82
outcome 59 (*see also* event)

Pap, A. 77–8, 80
partial belief xii, 2, 3
  and belief *4–7*
  measuring 7, 12ff., 27–49
  measuring by odds 15
  nature of *7–12*
  objectivity of 8–9
  subjective attitudes of 18
Peirce, C. S. 73
personalism xi, 1–26, 27ff., 42ff., 47
personalist probability theory 4
personal probability 27–8
phosphorus, melting point of 118
physiological age 97–100
  and death risk *83–97*
pivotal trials 148–50
Poincaré, H. 118, 141–3
Popper, K. R. 52, 66–7, 71, 73, 81, 108
precision 32 (*see also* imprecision)
predictional value 54
present tense subjunctive conditional 171–3
Price, H. H. 13
probabilities 3, 40, 104
  conflicting objective 130ff.
probability 51–5
  classical *136–46*
  conditional 131
  inductive 1
  mathematical – as a measure of chance and partial belief 30
  objective 18–19, 71
  personalist theory 4
  personal 27–8
  of error 102–3
