

Index

For entries involving principles or definitions, the page number on which the principle (definition) is first stated is italicized.

- a priorism*, 183–6
 acceptance, *see* belief
 Act View, *see* belief, Act View of
 aim to assert the truth, 108–11, 122–3, 148–53
 Allais, Maurice, 172n
 Allais paradox, 172–3
 and Impartiality, 177–8n
 solution to, 174–5
 anti-realism, xii, 118–20, 146, 147–8, 154
 archimedean assumption, 13n, 24n
 arguments
 cogency of, 184–5
 reductio, 96–7, 112, 114
 armchair reflection, determining rationality constraints by, xii, 183–6
 Armendt, Brad, 38n, 67n, 159n, 160n
 Assertion View, *see* belief, Assertion View of
 Availability, 164, 172
 Averaging, 177, 177–8
 aversion to gambling, 10–11, 157–8, 174–5
 Ayer, Alfred J., 145n
 BPC (Bayesian Principle of Condition-ization), 63, 63–4, 67, 74
 BPC', 64
 Baillie, Patricia, 160n
 base-rate fallacy, 189n
 Bayesian approach to epistemology, ix–x, 42, 44, 46, 102, 156, 180, 181–90
 Bayesian approach to evidence, 51, 56, 62, 85–6
 Bayesian Challenge, 98–103, 104, 105n, 110, 153, 154
 and the challenge to naive utility theory, 100–1n, 161
 belief, xi–xii, 89–121, 140–54, 182
 Act View of, 104, 104–6
 Assertion View of, 109
 and anti-realism, 118–20, 147–8
 and confidence, 111, 117–21, 142–8, 153–4
 and Deductive Cogency, 112–48
 and Descartes, 130–1
 and the Bayesian Challenge, 110, 153, 154
 argument for, 107–10
 reply to objections to, 142–54
 and certainty, 91–3, 104–6
 Certainty View of, 91, 92–3
 and confidence, 89–121, 140–54

INDEX

- belief (*cont.*)
 Confidence Threshold View of, 94, 94–8
 and Deductive Cogency, 95–8
 Contextualized Act View of, 105n, 105–6n
 inconsistent, *see* Deductive Cogency
 intelligibility of, *see* Bayesian Challenge
 justified, xi, 89, 145, 182
 and knowledge, *see* knowledge
 rational, 112–54
 in (acceptance of) theories, xi–ii, 89, 118–48
 Better Evidence, 75–6, 75–85
 Bolker, Ethan, 44n, 179n
 Braithwaite, Richard B., 104n
- Carnap, Rudolf, 24n, 80–2
 Certainty View, *see* belief, Certainty View of
 chance, 127–9, *see also* probability, objective
 Chihara, Charles S., 79n
 Christenson, David, 73n, 159n
 Churchland, Patricia, 186n
 Churchland, Paul, 186n
 Churchman, C. W., 104n
 cogency, *see* regulative ideal, *see also* Deductive Cogency
 cognitive value, 122–3
 Cohen, Stewart, 127n
 comprehensiveness, *see* aim to assert the truth
 con-assignment, 20
 a priori warranted, 81
 con(*P*), 15
 con(*P*|*Q*), 48
 and monetary value, 49, 72–3
 constraints on, 48–9
 CON(–), 64
 CON(–|–), 64
 confidence, 1–44
 and evidence, 47–52, 58–62
 mirrored in preferences, ix–x, 14, 46, 171–2
 Confidence, 8
 argument for, 7–9
 Confidence Threshold View, *see* belief, Confidence Threshold View of
 confirmation, 51, 52n, 55–6n
 context of inquiry, 108, 110, 112–20, 152–3, 153–4, *see also* aim to assert the truth
 Contextualized Act View, *see* belief, Contextualized Act View of
 contraction, 134, 135
 convexity, 31–2n
 Copernicus, Nicolaus, 133
 Countable Additivity, 33, 33–6, 127n
- de Finetti, Bruno, 24n, 33n
 decomposition, 10
 Decomposition, 10
 argument for, 9–11
 Deductive Cogency, 95, 96–8, 112–48
 degree of belief, 162, 168–72, 176
 Degree of Belief, 162
 degree of confidence, 24
 Descartes, René, ix, 98, 117n, 130–1, 182–3, 187
 DeSousa, Ronald B., 109n
 Dominance, 7
 argument for, 6–7
 Dominance*, 33
 Dutch Book Argument, x, 40–1n, 41n, 67n, 74n, 155–60, 161, 169, 176, 179–80, 181
- Earman, John, 35n, 51n, 79n, 80n, 156n
 Eells, Ellery, 50n, 51n, 55n, 79, 79n, 148n, 152n, 156n, 160n, 161n
 Ellis, Brian, 12n
 empirical adequacy, 118–19, 147
 epistemic reasons, *see* reasons, epistemic vs. prudential

INDEX

- error, desire to avoid, *see* aim to assert
 the truth
- Ethical Neutrality, 162
- ethically neutral, 162
- Euclid, 13n
- evidence, x, 45–88, 102
 and confidence, 47–52, 58–62
- Evidence, 48, 48–62, 63, 76–9, 84,
 85–6, 102, 182, 186
 argument for, 47–52
 reply to objections to, 56–62
- expansion, 134, 135
- Expectation, 22
- false precision, x, 5, 11, 23–31, 43,
 44, 60–1, 82–3, 125–6n, 172,
 178
