Index

[More information](#)*Index*

Abbreviated printed sources are indexed here under their abbreviations (with their full titles following within square brackets), rather than under their author/editor, unless the author's/ editor's name is part of the abbreviation. Contents of footnotes have been indexed (beyond the citations provided) when they go beyond what is included in the text proper. Kings and queens referred to but not named in the text are indexed by name to the relevant pages, with the page numbers placed within square brackets. All references to mayors are indexed under "Mayors, mayoral" unless a specific mayor is named in the text. Non-company MSS used and cited are indexed at the ends of the entries for their specific archives/libraries; company MSS used and cited are indexed at the ends of their companies' entries. MSS only mentioned within the text are included within the index entries for their archives/libraries and companies.

This index does not include the detail of the contents of the transcribed records printed in Appendix B, although it includes their overall subject and the information provided about them in the Appendix's headings.
