<i>Tables</i>	xvii
<i>Preface</i>	xix
<b>1 Chinese Archaeology: Past, Present, and Future . . . . .</b>	<b>1</b>
The Formative Period (1920s–1940s)	2
Development of Archaeology in the People’s Republic of China (1950–Present)	8
Interpretations	16
International Collaborative Research in China	19
Conclusions	20
<b>2 Environment and Ecology . . . . .</b>	<b>22</b>
Geography	22
River Systems	26
Ecological Divisions	29
Paleoclimate, Paleoenvironment, and Human Adaptations	30
Conclusions	41
<b>3 Foragers and Collectors in the Pleistocene–Holocene Transition (24,000–9000 cal. BP) . . . . .</b>	<b>42</b>
Environmental Conditions and Human Adaptations	42
Research Questions and Terminology	44
Terminal Pleistocene Foragers in North China	46
Early Holocene Collectors in North China	51
Pleistocene Foragers in Central and South China	58
Holocene Collectors in Central China	61
Summary	64
Origins of Pottery in China	64
Origins of Pottery in the Regional Context of East Asia	68
The Emergence of Sedentism in China	70
Transitions in Other Regions of China	73
Conclusions	74

<b>4</b>	<b>Domestication of Plants and Animals . . . . .</b>	<b>75</b>
	Domestication of Plants	75
	Domestication of Animals	96
	Dynamics of Domestication	118
	Conclusions	121
<b>5</b>	<b>Neolithization: Sedentism and Food Production in the Early Neolithic (7000–5000 BC) . . . . .</b>	<b>123</b>
	Determining Sedentism and Subsistence Strategies	126
	Northeast and North China	127
	The Yangzi River Region	152
	South China	160
	Discussion	162
	Conclusions	167
<b>6</b>	<b>Emergence of Social Inequality – The Middle Neolithic (5000–3000 BC) . . . . .</b>	<b>169</b>
	The Liao River Valley	172
	The Yellow River Region	183
	The Yangzi River Region	197
	South China	207
	Conclusions	210
<b>7</b>	<b>Rise and Fall of Early Complex Societies: The Late Neolithic (3000–2000 BC) . . . . .</b>	<b>213</b>
	The Yellow River Valley	216
	Northeast China	234
	The Yangzi River Region	236
	South and West China	246
	Conclusions	250
<b>8</b>	<b>Formation of Early States in the Central Plain: Erlitou and Erligang (1900/1800–1250 BC) . . . . .</b>	<b>253</b>
	Approaches and Definitions	254
	Search for the Xia Dynasty	259
	The Erlitou Culture and Erlitou State	262
	The Neighbors of the Erlitou State	274
	The Erligang Culture and Erligang State	278
	Aftermath of the Erligang Expansion: The Middle Shang	
	Decentralization	290
	Conclusions	294
<b>9</b>	<b>Bronze Cultures of the Northern Frontiers and Beyond during the Early Second Millennium BC . . . . .</b>	<b>297</b>
	Environmental Conditions and Cultural Background	300
	The Lower Xiajiadian Culture	302
	The Zhukaigou Culture	312
	The Qijia Culture	322

## ILLUSTRATIONS

2.1. Administrative divisions of China.	<i>page</i> 23
2.2. Ecological zones of China.	25
2.3. Geomorphology of China.	27
2.4. Reconstruction of vegetation zones.	31
2.5. Changing position of East Asian Monsoon maximum in China.	33
2.6. Holocene sea level changes along coastal areas in China.	35
2.7. Movement of coastlines.	36
2.8. Holocene climatic changes in northern China.	37
3.1. Major sites and locations mentioned in Chapter 3.	43
3.2. The Xiachuan site cluster and artifacts unearthed.	48
3.3. Late Paleolithic site at Shizitan and artifacts unearthed.	49
3.4. The Donghulin site and major finds.	53
3.5. Artifacts from Nanzhuangtou in Hebei.	55
3.6. Landscape of Yuchanyan and artifacts from Yuchanyan and Zengpiyan.	59
3.7. Features and artifacts discovered at Shangshan, Zhejiang.	62
3.8. East Asian coastline and the distribution of early pottery.	65
4.1. Location of sites associated with early rice remains.	77
4.2. Location of sites related to the millet domestication process.	83
4.3. Increase in size of broomcorn millet.	85
4.4. Major sites associated with soybean remains in China and Korea.	89
4.5. Major sites associated with early wheat, barley, and oats in North China.	93
4.6. Major sites associated with domesticated dogs, pigs, sheep/goats, and cattle.	97
4.7. Comparison of sizes of M <sub>3</sub> from pig assemblages.	100
4.8. Comparison of LEH frequency on pig tooth crowns.	101
4.9. Comparison of the ranges of pig M <sub>3</sub> and wild boar mandibular length.	103
4.10. Distribution of sites associated with domestic cattle remains in North China.	108
4.11. Art presentation of animals from Yunnan.	109
4.12. Sites associated with horse remains.	113

5.1. Distribution of early Neolithic cultures in China.	124
5.2. Chronology of early Neolithic cultures in China.	125
5.3. Location of early Neolithic sites in relation to high concentrations of <i>Quercus</i> .	128
5.4. The settlement layout of the Xinglongwa site.	129
5.5. Artifacts of the Xinglongwa culture.	131
5.6. Artifacts from the Cishan-Beifudi culture.	135
5.7. Landscape of the Beifudi site.	136
5.8. Settlement and dwelling of the Xiaojingshan site.	139
5.9. Artifacts from the Houli culture.	141
5.10. Distribution of major Peiligang culture sites.	142
5.11. Peiligang culture burials, all from Jiahu.	145
5.12. Artifacts of the Peiligang culture, all from Jiahu.	149
5.13. Artifacts from the Baijia-Dadiwan culture.	151
5.14. Major early Neolithic sites in the Yangzi River region and South China.	153
5.15. Pottery vessels from the Pengtoushan, Lower Zaoshi, and Chengbeixi cultures.	155
5.16. Stone tools from the Pengtoushan culture.	157
5.17. The Kuahuqiao site and artifacts unearthed.	159
5.18. Storage of acorns, Kuahuqiao.	161
5.19. Artifacts and burials from Dingsishan, Yongning, and Guangxi.	163
6.1. Distribution of middle Neolithic cultures in China.	170
6.2. Chronology of major cultures of the middle Neolithic period.	171
6.3. Distribution of major Zhaobaogou and Hongshan sites.	173
6.4. Art representations from the Liao River region.	174
6.5. Pottery types and stone tools of the Hongshan culture.	175
6.6. Altars with elite burial at Locality II at Niuheliang.	179
6.7. Locations of major middle Neolithic sites in the Yellow River Valley.	181
6.8. Examples of burial, pottery, and stone tools from the Beixin culture.	185
6.9. Examples of Dawenkou burial and artifacts.	187
6.10. Examples of Yangshao burials and artifacts.	188
6.11. Layout of the Jiangzhai site in Lintong, Shaanxi.	191
6.12. Plan of the large building F901 at Dadiwan.	195
6.13. Human burial accompanied by shell mosaics from Xishuipo.	197
6.14. Middle Neolithic sites in southern China.	198
6.15. Daxi culture ceramics.	199
6.16. Chengtoushan walled site and ancient rice paddies.	201
6.17. Hemudu culture in Zhejiang.	203
6.18. Lingjiatan cemetery and jade artifacts unearthed.	205
6.19. Pottery assemblage from Xiantouling.	209
6.20. Cord marked and incised pottery from Dabenkeng.	211
7.1. Distribution of late Neolithic cultures.	214
7.2. Distribution of major sites and walled settlements.	215
7.3. Late Dawenkou mortuary goods and burial custom.	219

7.4. Signs and symbols found on pottery and jade objects.	221
7.5. Distribution of Longshan sites in Henan, southern Shanxi, and western Shandong.	223
7.6. The Taosi site, late Neolithic Longshan culture.	224
7.7. Artifacts and features unearthed from Taosi.	225
7.8. Changing ratio between wild and domestic animals in the Northern Zone.	229
7.9. Stone fortifications in northern Shaanxi.	231
7.10. Majiayao culture remains.	235
7.11. Location of major Liangzhu sites that yielded jade artifacts.	237
7.12. The Mojiaoshan site cluster, Liangzhu culture.	239
7.13. Jade objects from the Liangzhu culture.	241
7.14. Shijiahe site cluster.	244
7.15. Shijiahe art representations.	245
8.1. Distribution of cultures during the Erlitou period and distribution of natural resources.	257
8.2. Xinzhai phase sites.	261
8.3. Distribution of Erlitou culture sites in the Yiluo region.	264
8.4. Artifacts discovered at Erlitou.	265
8.5. Plan of the Erlitou site and location of archaeological features.	267
8.6. Artifacts from the Yueshi culture.	277
8.7. Political landscape of the early Shang period.	279
8.8. Yanshi Shang City.	280
8.9. Distribution of major archaeological remains at Zhengzhou Shang City.	281
8.10. Artifacts from Zhengzhou Shang City, the Erligang culture.	283
8.11. Salt storage facilities at Dongxiafeng.	286
8.12. Panlongcheng.	287
8.13. Major transportation routes linking the core area with the periphery.	289
8.14. Archaeological cultures in the middle Shang period.	292
8.15. Xiaoshuangqiao glyphs compared with oracle-bone and bronze inscriptions.	293
9.1. Bronze Age cultures in northern China, the Central Plain, and the Eurasian steppe.	298
9.2. Location of major sites mentioned in Chapter 9.	301
9.3. A walled Lower Xiajiadian site at Erdaojingzi in Chifeng.	304
9.4. Lower Xiajiadian sites in the Banzhijian survey area.	305
9.5. Settlement hierarchy and rank-size distribution observed in the Banzhijian area.	306
9.6. The Dadianzi cemetery.	307
9.7. Artifacts from the Dadianzi cemetery.	309
9.8. Zhukaigou ceramics.	314
9.9. Bronze artifacts and craft tools from Zhukaigou.	315
9.10. Zhukaigou site, Phases III and IV.	316
9.11. Burial M1052 at Zhukaigou.	317
9.12. Zhukaigou site, Phase V.	319

9.13. Qijia culture pottery and bronzes.	324
9.14. Excavated western section of the Dahezhuang site, Qijia culture.	325
9.15. Burial M48 from Huangniangtai.	327
9.16. Qijia culture jade objects.	329
9.17. Comparison of bronze objects from Erlitou and Qijia sites.	331
9.18. Bronze objects from Siba culture.	335
9.19. Archaeological finds from Qäwrighul.	339
9.20. Xiaohe cemetery and artifacts unearthed.	341
9.21. Tianshanbeilu ceramics compared with Siba and Qiemurqiek in Altai.	343
9.22. Metal objects from Tianshanbeilu.	343
10.1. Regional cultures and major sites of the late Shang period.	351
10.2. Distribution of named polities in oracle-bone inscriptions.	354
10.3. Site distribution along the Huan River Valley in the middle and late Shang periods.	355
10.4. Plan of Huanbei Shang city and Yinxu.	357
10.5. Archaeological remains from Yinxu.	359
10.6. Artifacts from Taixi in Gaocheng.	361
10.7. Distribution of settlement clusters in the late Shang period, Shandong.	364
10.8. Distribution of salt-making vessel, <i>kuixingqi</i> in north Shandong.	365
10.9. Archaeological remains from Shandong, late Shang period.	367
10.10. Wucheng in Jiangxi.	369
10.11. Artifacts from the Dayangzhou tomb in Xin'gan.	371
10.12. Plan of the Sanxingdui site.	373
10.13. Artifacts unearthed from Sanxingdui.	375
10.14. Bronze artifacts from Chenggu and Yangxian.	377
10.15. Distribution of Shang and proto-Zhou sites in the Wei River region.	378
10.16. Bronze and jade artifacts from Laoniupo.	379
10.17. Major sites of the Lijiaya culture.	382
10.18. Artifacts from the Loess Plateau region, late Shang period.	383
