- Abduction 99
- Abrams, Phillip 105
- Abstraction 35, 76, 84–85, 102, 129, 176–177  
 degrees of 92, 118  
 and representation 84–85  
 and typification 85  
*see* Generalization
- Achen, Christopher 153–156
- Achinstein, Peter 8
- Agents 2  
 as causes 4, 75, 83  
 denial of 53, 180  
 and generative social mechanisms 75–84  
 as powerful particulars 72  
 reproduce and transform structure 68, 115  
*see* Structuration, Duality of Structure.
- AJS* (*American Journal of Sociology*)  
 Debate 171–174
- Alexander, Jeffrey 8, 112
- Ancestry 47
- Anderson, P. W. 145
- Anderson, Perry 106, 107, 112
- Appadurai, Arjun 149
- Archer, Margaret 72, 73
- Aristotle 55, 72
- Aronson, Gerald 8  
 on ontology and explanation 14
- Arrow, Kenneth 126, 145  
 Arrow's Paradox 196
- Ashley, Richard 67–68  
 (*American Sociological Review*) Debate 171–174
- Atkins, Peter 14–16, 17, 27, 36  
 on the period table 23
- Augier, Mie 147
- Bahktin, Mikhail 65
- Bakan, Joel 131
- Balough, Thomas 128
- Baran, Paul 142, 190, 191, 192, 197
- Barnet, Richard 131, 149
- Barone, Enrico 150
- Becker, Gary 194
- Bell, Daniel 116  
 on human science 104
- Belluci, Patricia 87, 99
- Bendix, Reinhard 104, 107, 113–114
- Benhabib, Seyla 31
- Berle, Adolph A. 131
- Bhaskar, Roy 2, 8, 16, 72, 76, 146, 172  
 complex causality 35  
 experiments 33  
 experimental closure 35  
 goals of science 14  
 methodological individualism 82  
 reasons as causes 54  
 regularity determinism 37  
 social science as emancipatory 67  
 theory in social science  
 transformational model 70–71
- Bickerton, Derek 50
- Biggart, Nicole W. 127
- Biography 115
- Blau, Peter 178
- Bloch, Marc 104
- Boettke, Peter J. 126, 129, 140  
 on micro and macro economics 191–192  
 on transactions costs 196  
 role of price system 146
- Bogomolov, Oleg 136
- Bohm, David, on causality 21–22, 23
- Bohr, Niels 36
- Boltzman, Ludwig 8
- Bonham, Vence L. 47
- Bottomore, Tom 133
- Boudon, Raymond 76  
 on causality 171  
 on rational choice theory 82  
 social mechanisms 90
- Bourgeois, Phillip 87

## 218 Index

- Bourdieu, Pierre 2, 55, 66, 76  
 on reflexivity 65  
 task of sociology 76
- Brackman, Steven 190
- Brenner, Robert 148, 149
- Brown, Harold I. 29
- Brownstein, Henry H. 87, 99
- Bunge, Mario, on causal mechanisms 16, 73, 175
- Burawoy, Michael 4, 68, 76, 113, 163, 166
- Burian, Richard 39
- Bush, George W. 114
- Calhoun, Craig 171  
 on causal explanation, centrality of 171  
 confusions over 171  
 what is at stake in 173  
 sociology of historical sociology 105
- Camic, Charles 104
- Campbell, Donald 52
- Cartwright, Nancy 16
- Causal Mechanisms 1–2, 4, 28, 50, 172–173  
 and general laws 183–185  
 persons as product of many 3, 51  
 as promissory notes  
 structures as 168–169, 173  
 and understanding 16–25, 28
- Causes 1–2  
 agents as 2  
 analyzed as necessary and sufficient conditions 160–162  
 effort at extensionalist analysis of 161  
 in AJS debate 171–174  
 Humean account of 17–21, 160  
 as productive powers 2, 21–24  
 and nomicity 21–22, 115  
 are non-additive 52  
 realist analysis of 2, 21–24, 160, 172–173  
 reasons as 54–56  
 versus correlations 151–152, 164–169  
 working conjunctively 3  
*see* Causal Mechanisms
- Cavelli-Sforzsa, Luigi Luca 45, 47
- Chai, Sun-Ki 178
- Chakrabarty, Dipesh 93–94
- Chamberlin, E. H. 142, 190, 191
- Chandler, Alfred D. 131
- Clifford, J. 64
- Coase, R. H. 130, 133, 134–137
- Cobb, Jonathan 76
- Coleman, James 76, 178
- Collier, Andrew 99
- Collingwood, R. G. 53
- Collins, Patricia Hill 66
- Collins, Randall 86  
 on Weber 118
- Commons, John R. 127
- Comte, August 17, 103
- Confirmation  
 logic of 32
- Conley, Dalton 34
- Consciousness 56  
 as social 50
- Coyne, Jerry A. 46
- Craver, Carl F. 44
- Comparative Sociology  
 goals of 108–109, 157–158, 168–169  
 modes of 107–110
- Comparison 157–158  
 nominal 158–163  
 Durkheim on 164  
 ordinal 164–165
- Competition 190  
 perfect vs imperfect 131, 141–142, 187, 189–191  
 in process theories 145, 147  
*See* Neo-classical Theory, Markets
- Covering Law (D-N) Model 2, 5, 8, 18, 103, 126  
*see* Deductive-Nomological Explanation.
- Culture / structure dichotomy 71–72  
 in structuration debate 161  
 Moore on 120
- Darwin, Charles 39–40, 50
- Davis, Mike 148
- Davis, William L. 128
- DeBreu, G. 126, 129
- Deductivism  
 defined 2  
 in economics 5  
*see* Covering Law Model, D-N Model.
- Deductive-Nomological (D-N) Explanation 2, 8, 18, 19  
 assumes the wrong relation 12  
 defined 9  
 fails in any science 11  
 symmetry of explanation and prediction 11
- Delanty, Gerard 105
- Descartes, René 26
- Determinism  
 and causality 3  
 regularity 37–39, 55  
 structural 68  
 versus free will 53
- Dewey, John 23  
 character and habits 55

- on social consciousness 50
  - spectator theory 65
- Dilthey, Wilhelm 10
- Dixit, Avinash K. 190
- Dobbin, Frank 127
- Drechsel, Emanuel 45
- Dretske, Fred 8, 123
- Droysen, Johann Gustav 10
- Dugger, William M. 127, 131, 148
- Duhem, Pierre 8
  - rejection of explanation 17
- Durkheim, Emile 69, 103
  - on history and sociology 103, 127
  - structuralist explanation 58
- Duster, Troy
  - on “race” and disease 47, 48, 49
- Dyck, Charles F. 135, 188, 198
  
- Einstein, Albert 30
  - advice to philosophers of science 7
  - as metaphysician 18
- Eisenstadt, S. N. 106
- Elias, Norbert 104
- Elson, Diane 140, 150
- Elster, Jon 76
- Emergence 44, 49
- Empiricism 3, 172
  - analysis of dispositional terms 21, 27–28, 29
  - and theory 27–29
  - see* Foundationalism, Positivism
- Engels, Friedrich 103
- Epigenesis
  - defined 43–45
  - and factor analysis 52
  - and human development 51
  - see* Human Nature
- Episodes 121, 123
  - and events 11, 123
- Epistemology
  - defined 9
- Ethnography 4, 63, 121
  - as first step in social science 4, 66
  - and privileging a point of view 65–66
- Ethnomethodology 63
- Etzioni, Amitai 127
- Evolutionary biology
  - as model for social science 39
- Explaining Behavior
  - by means of reasons 54–56
  - improving on the ordinary way of 52–57
  - and psychology 52
  - and regularity determinism 52
  - see also* Rational Choice Theory
- Explanation 1–2, 7–25
  - asymmetry with prediction 11, 36
  - of events 11
  - historical 115
  - mis-conceived as a logical relation 18
  - narrative 104, 116, 121, 123, 124, 157
  - and understanding 12–13
  - uncritically assumed 7
  - see* Covering Law Model, Understanding, Idiographic/Nomothetic
- Experiment 2
  - and closure 33–35, 160
  - mathematical vs experimental control 153
  - “natural” 99–101
  
- Fabian, Johannes 65
- Fallibilism 30
- Falsification 26–33
