Cambridge University Press has no responsibility for the
persistence or accuracy of URLs for external or third-party
internet websites referred to in this publication and does not
guarantee that any content on such websites is, or will remain,
accurate or appropriate.

Every effort has been made in preparing this book to provide
accurate and up-to-date information which is in accord with
accepted standards and practice at the time of publication.
Although case histories are drawn from actual cases, every effort
has been made to disguise the identities of the individuals
involved. Nevertheless, the authors, editors and publishers can
make no warranties that the information contained herein is
totally free from error, not least because clinical standards are
constantly changing through research and regulation. The
authors, editors and publishers therefore disclaim all liability for
direct or consequential damages resulting from the use of
material contained in this book. Readers are strongly advised to
pay careful attention to information provided by the
manufacturer of any drugs or equipment that they plan to use.
