Apgar score and 143, 144
birth asphyxia 312–13
cerebral seizures of
unknown etiology 155
dextrose 155
documentation 144, 183
epinephrine 153, 154,
159, 164
equipment 73
ethical aspects 172, 185–6
failure to respond 166–8
airway obstruction 167
baby affected by opiates
administered to
mother 168
baby who remains blue 167
baby who remains pale 167
guidelines, step-by-step
156–9
pneumothorax 167
hemolytic disease of the
newborn 425
hydrops fetalis 429–30
preparation for 428
hygiene 133
ILCOR recommendations
163–59
perinatal hemorrhage 306
persistent pulmonary
hypertension of the
newborn 397
sequence 151–2
airway 151
assessment 151
breathing 151–2
circulation/chest
compressions 152
drugs 152
warming 151
sodium bicarbonate 154
sudden infant death
syndrome 469

prevention 471
therapy 469, 470–1
supraventricular tachycardia (SVT) 331–3
clinical presentation 331
diagnosis 331
epidemiology 331
etiology 331
pathophysiology 331
therapy 331–3
surfactant 59, 63, 166
congenital diaphragmatic hernia 408
meconium aspiration syndrome 277–8
surfactant (cont.)
persistent pulmonary hypertension of the newborn 399
very-low-birth-weight infants 234–5, 236
surfactant replacement therapy (SRT) 236
meconium aspiration syndrome 278
synchronous intermittent mandatory ventilation (SIMV) 195
SIMV-PS (pressure support) 195
syphilis 286
T-piece resuscitators 29, 74, 75, 78, 137
contraindication 15–81
indication 156
tachycardia
persistent fetal tachycardia 325–6
etiology 328–31
junctional ectopic tachycardia (JET) 334
premature atrial contractions 328
premature ventricular contractions 328
supraventricular tachycardia (SVT) 331–3
ventricular tachycardia 333–4
re-entry 326
team work 5–8
neonatal emergency transport services 5
temperature control during transport 496–7
preterm infants 164, 166
see also warming
tension pneumothorax 412–15
see also pneumothorax
term neonate 16
tetralogy of Fallot (ToF) 364–8
clinical presentation 366–7
complications 367
definition 364
diagnosis 367, 368
epidemiology 365
etiology 365–6
monitoring 368
therapy 367–8
