

Contents

Preface		<i>page</i> vi
1 Galois Theory of Linear Differential Equations	<i>Michael F. Singer</i>	1
2 Solving in closed form	<i>Felix Ulmer and Jacques-Arthur Weil</i>	83
3 Factorization of Linear Systems	<i>Sergey P. Tsarev</i>	111
4 Introduction to D -modules	<i>Anton Leykin</i>	132
5 Symbolic representation and classification of integrable systems	<i>A.V. Mikhailov, V.S. Novikov and Jing Ping Wang</i>	156
6 Searching for integrable (P)DEs	<i>Jarmo Hietarinta</i>	217
7 Around Differential Galois Theory	<i>Anand Pillay</i>	232
