Every effort has been made in preparing this book to provide accurate and up-to-date
information which is in accord with accepted standards and practice at the time of publication.
Although case histories are drawn from actual cases, every effort has been made to disguise the
identities of the individuals involved. Nevertheless, the authors, editors, and publishers can
make no warranties that the information contained herein is totally free from error, not least
because clinical standards are constantly changing through research and regulation. The
authors, editors, and publishers therefore disclaim all liability for direct or consequential
damages resulting from the use of material contained in this book. Readers are strongly advised
to pay careful attention to information provided by the manufacturer of any drugs or
equipment that they plan to use.
