appropriate.

Every effort has been made in preparing this book to provide accurate and up-to-date  
information that is in accord with accepted standards and practice at the time of  
publication. Nevertheless, the authors, editors, and publisher can make no warranties  
that the information contained herein is totally free from error, not least because  
clinical standards are constantly changing through research and regulation. The  
authors, editors, and publisher therefore disclaim all liability for direct or consequential  
damages resulting from the use of material contained in this book. Readers are strongly  
advised to pay careful attention to information provided by the manufacturer of any  
drugs or equipment that they plan to use.
