Foreword by Carol L. Lake x

Preface xii

-
- | | |
|--|---|
| <p>1 The history of anesthesia and perioperative monitoring 1
David L. Reich</p> <p>2 Medicolegal implications of monitoring 9
Jeffrey M. Feldman</p> <p>3 Validity, accuracy, and repeatability of monitoring variables 16
Daniel M. Thys and Jung Kim</p> <p>4 Teaching monitoring skills 27
Samuel DeMaria, Jr., Adam I. Levine, and Yasuharu Okuda</p> <p>5 Electrocardiography 36
Alexander J. C. Mittnacht and Martin London</p> <p>6 Arterial pressure monitoring 45
Alexander J. C. Mittnacht and Tuula S. O. Kurki</p> <p>7 Central venous and pulmonary artery catheterization 57
Deborah Dubensky and Alexander J. C. Mittnacht</p> <p>8 Cardiac output and intravascular volume 79
Mukul Kapoor and Marc E. Stone</p> <p>9 Gastric tonometry 95
Elliott Bennett-Guerrero</p> <p>10 Oxygen delivery, oxygen transport, and tissue oxygen tension: critical monitoring in the ICU 98
Jayashree Raikhelkar and Peter J. Papadakos</p> <p>11 Transesophageal echocardiography 105
Ronald A. Kahn and Gregory W. Fischer</p> <p>12 Ultrasound guidance of vascular catheterization 136
Andrew B. Leibowitz and Jonathan Elmer</p> <p>13 Ultrasound guidance for regional anesthesia procedures 145
Christina L. Jeng and Meg A. Rosenblatt</p> <p>14 Respiratory gas monitoring 150
James B. Eisenkraft</p> | <p>15 Monitoring pressure, volume, and flow in the anesthesia breathing system 171
James B. Eisenkraft</p> <p>16 Pulse oximetry 185
Tuula S. O. Kurki and James B. Eisenkraft</p> <p>17 Neurologic intraoperative electrophysiologic monitoring 199
Michael L. McGarvey and Albert T. Cheung</p> <p>18 Level of consciousness monitoring 218
Marc J. Bloom</p> <p>19 Transcranial Doppler 226
Dean B. Andropoulos</p> <p>20 Multimodality monitoring in critically ill neurologic patients 237
Jennifer A. Frontera</p> <p>21 Near-infrared spectroscopy 249
Dean B. Andropoulos</p> <p>22 Perioperative monitoring of neuromuscular function 261
Aaron F. Kopman</p> <p>23 Critical care testing in the operating room: electrolytes, glucose, acid–base, blood gases 281
Lakshmi V. Ramanathan, Judit Tolnai, and Michael S. Lewis</p> <p>24 Laboratory-based tests of blood clotting 291
Nathaeln Weitzel, Tamas Seres, and Glenn P. Gravlee</p> <p>25 Coagulation and hematologic point-of-care testing 308
Liza J. Enriquez and Linda Shore-Lesserson</p> <p>26 Cardiac biomarkers for perioperative management 319
Anoushka Afonso and Eric Adler</p> <p>27 Endocrine testing in the operating room 327
Lakshmi V. Ramanathan and Michael S. Lewis</p> |

Contents

- | | | | | | |
|----|--|-----|----|--|-----|
| 28 | Temperature monitoring | 331 | 34 | Intensive care unit risk scoring | 369 |
| | David Wax and Justin Lipper | | | Adel Bassily-Marcus and Roopa Kohli-Seth | |
| 29 | Fetal heart rate monitoring | 337 | 35 | Computers and monitoring: information management systems, alarms, and drug delivery | 383 |
| | Howard H. Bernstein | | | David Wax and Matthew Levin | |
| 30 | Pain scales | 348 | | | |
| | Jonathan Epstein, Diana Mungall, and Yaakov Beilin | | | | |
| 31 | Neurologic clinical scales | 353 | | | |
| | Jennifer A. Frontera | | | | |
| 32 | Postanesthesia care unit assessment scales | 357 | | | |
| | David Bronheim and Richard S. Gist | | | | |
| 33 | Delirium monitoring: scales and assessments | 360 | | | |
| | Brigid Flynn and Corey Scurlock | | | | |
-
- Appendix: Monitoring recommendations for common types of surgical procedures* 397
Index 405
