## Index of dilemmas and reconciliations

### (r.b. = reconciled by)

- absorbing information top-down vs. thinking and doing bottom-up 59, 62, 76–7, 98–9, 109, 115–16, 129
- (r.b. absorbing top-down information first and then thinking and acting on this bottom-up)
- abstract thought vs. concrete experience (Donald Kolb) 11–13, 42, 55, 115
- (r.b. thinking inductively by abstracting from concrete experience)
- achievement pre-defined, *see* merit
- assertion vs. peacefulness (Mahatma Gandhi) 54
- (r.b. asserting yourself non-violently yet courageously to bear witness)
- Bourgeois vs. Bohemian (David Brooks) 56, 183–4, 190–1
- (r.b. innovative denizens of Silicon Valley who combine both styles)
- career continuity vs. periodic transformation 59, 65, 81–3, 101–2, 119–20
- (r.b. transformation that occurs when continuities converge and intersect)
- challenge vs. skills in team processes (Mihaly Csikszentmihalyi) 49–50, 187
- (r.b. skills reaching up to meet challenges create intense experience of *flow*)
- change vs. continuity (Kurt Lewin) 54
- (r.b. unfreeze-change-refreeze, a form of change that allows you to retain identity)
- competition vs. cooperation, *see* level playing field
- creativity vs. destruction (J. Schumpeter) 54
- (r.b. innovation which is a ‘gale of creative destruction’)
- death-wish vs. life-wish (Otto Rank and Ernest Becker) 53
- (r.b. creativity that defies your mortality by leaving a lasting legacy)
- demand innovation vs. supply innovation (Adrian Slywotzky) 34–5, 42
- (r.b. aiming your novel supplies at the ‘pain points’ felt by your customer)
- designed strategy vs. emergent strategy (Henry Mintzberg) 55
- (r.b. designing your strategy out of what has emerged spontaneously)
- discovery, logic of, vs. reconstructed logic (Abraham Kaplan) 54, 67
- (r.b. first discovering then codifying and reconstructing so as to pass on to others)
- disruptive innovation vs. sustaining innovation (Clayton Christiansen) 146, 149, 157
- (r.b. disrupting your own efforts to sustain innovation by using simpler models)
- dissent vs. loyalty (Socrates and Immanuel Kant) 53
- (r.b. dissenting in a democracy may be an act of courageous loyalty)
- divergent vs. convergent thinking (J. Getzels, P.W. Jackson) 54
- (r.b. diverging to multiply options then converging on the most original combinations)

## 230 INDEX OF DILEMMAS AND RECONCILIATIONS

- diversity vs. inclusion 23  
(r.b. the process of including a wide diversity of people)
- doubt vs. certainty (Scientific Method) 66–7  
(r.b. doubting systematically and becoming more certain as we verify)
- early vs. late developers 17–19  
(r.b. late developers who are more likely to seek short-cuts to join early developers)
- finite game vs. infinite game (James P. Carse) 55, 170–2  
(r.b. the infinite game which is derived from joining finite games together and learning)
- fortune and good luck vs. careful preparation (Louis Pascal) 53  
(r.b. ‘fortune favours the prepared mind’)
- hard science vs. soft skills 15–16  
(r.b. use your soft skills to mobilize and commercialize your science)
- High tech vs. innovation 20–1  
(r.b. the frontiers of high tech. give endless opportunities for new combinations)
- hopelessness vs. determination (F. Scott Fitzgerald) 54  
(r.b. seeing that ‘things are hopeless yet be determined to make them otherwise’)
- humility before creation vs. confidence to change it 60, 68, 88–90, 123–4  
(r.b. accepting what you cannot change and so seeing what you can)
- individual vs. team achievement 60, 69, 90–1, 124–5  
(r.b. individual learning to engage team which rallies around innovative individual)
- intellectual ordering vs. emotional experience (Daniel Goleman) 59, 60–2, 73–5, 97–8, 108, 114, 129  
(r.b. following your feelings before checking their validity to gain emotional intelligence)
- knowledge of the true and beautiful vs. knowledge of the practical and useful 60, 66, 85–6, 121–2  
(r.b. solving a practical problem is a true and beautiful experience)
- lateral thinking vs. vertical thinking (Edward de Bono) 54, 87–88, 122–3  
(r.b. making lateral connections between vertical ‘shafts’)
- left-brain vs. right-brain (Roger Sperry) 55  
(r.b. problems passed between hemispherical functions via *corpus callosum*)
- level playing field for competition vs. extended cooperative family atmosphere 41, 59, 62–4, 77–9, 99–100, 109–10, 129  
(r.b. family acting as cheering section and critic for competing players)
- mass-production vs. customization (Joe Pine) 55  
(r.b. modules that are mass-produced while their combinations are customized and unique)
- merit pre-defined by those in authority vs. merit re-defined by innovators 13–15, 60, 69–70, 91–2, 125–6, 130  
(r.b. re-defining merit and then winning authorities over to your position)
- neurotic symptoms vs. ego-strength and resilience (Frank Barron) 54  
(r.b. going near to your breaking point only to rally and persevere)
- normal science vs. paradigm change and revolution (Thomas S. Kuhn) 55  
(r.b. science proceeds normally till its paradigm breaks down and revolution comes)
- objectivity and scepticism vs. negative feedback amid rapport 60, 66–7, 83–5, 103–5, 119–21, 130  
(r.b. these are simply two complementary ways of re-thinking)

## INDEX OF DILEMMAS AND RECONCILIATIONS 231

- over-valuation of kinship vs. under-valuation of kinship (Claude Lévi-Strauss) 53  
(r.b. the theme of Greek tragedy is twin peril. Avoid excess, seek *harmonia*)
- past vs. future 13, 25, 41  
(r.b. building continuity from past to future)
- play, *see* seriousness
- power vs. soul (Martin Luther King) 55  
(r.b. soul-power, a forceful yet peaceful yearning of black Americans for liberation)
- pure quest for knowledge vs. practical accomplishments 60, 66, 85–6, 121–2  
(r.b. making pure knowing practical)
- realism vs. idealism 45–7, 59–60, 127  
(r.b. creating an ideal and then struggling to realize it)
- report vs. rapport 60, 66–7, 83–5, 103–5, 119–21, 130  
(r.b. first establish rapport, than report harsh facts)
- right first time vs. error and correction (W. Edwards Deeming) 10–11  
(r.b. correcting fast in simulation so you will right in shortest possible time)
- selfish vs. unselfish conduct (Ruth Benedict) 54  
(r.b. a benign culture assures that unselfish persons are repaid so their selves don't suffer)
- seriousness vs. play 13, 26–7, 41, 56, 59, 64–5, 79–81, 100–1, 108, 111, 113, 116–18  
(r.b. playing while practising for the serious encounters to come when you launch)
- shock vs. recognition (Arthur Koestler) 54  
(r.b. the shock comes from the novel combination, the recognition from the old parts)
- strangeness vs. familiarity (William J.J. Gordon) 54  
(r.b. innovation which makes the familiar strange and the strange familiar)
- supply innovation, *see* demand innovation
- survival of the fittest vs. co-evolution among different species 55, 173–4  
(r.b. survival of the 'fittestest', those combining best with their environment)
- tacit knowledge vs. explicit knowledge (Ikujiro Nonaka and H. Takeuchi) 56  
(r.b. making the tacit explicit and learning through spiral dynamics)
- vertical thinking, *see* lateral thinking
