this publication, and does not guarantee that any content on such websites is,
or will remain, accurate or appropriate.

Every effort has been made in preparing this book to provide accurate and up-to-date information which is in accord
with accepted standards and practice at the time of publication. Although case histories are drawn from actual cases,
every effort has been made to disguise the identities of the individuals involved. Nevertheless, the authors, editors and
publishers can make no warranties that the information contained herein is totally free from error, not least because
clinical standards are constantly changing through research and regulation. The authors, editors and publishers there-
fore disclaim all liability for direct or consequential damages resulting from the use of material contained in this book.
Readers are strongly advised to pay careful attention to information provided by the manufacturer of any drugs or
equipment that they plan to use.
