A-movement, 23, 210, 215, 477
A′-movement, 18, 20, 23, 159, 182, 215, 226, 231, 426, 463, 477, 491
aboutness, 509
Ad-S, 10, 468
  see also functional adjunct; speaker-oriented adverb
Ad-V, 10, 56
  see also event-internal modification; manner adverbial; measure adverb
Ad-VP, 10, 54, 468
  see also event-external modification; functional adjunct; subject-oriented adverb
additive adverb, *see* iterative adverb
adjacency, 2, 22, 207–209, 215, 219, 222, 225, 293, 416, 429, 463
adjectives, 128–130, 144, 170, 274, 461, 470, 494
adjunct
  criterion, 110
  classification, 9–10
  definition, 7
  see also domain adjunct; functional adjunct; participant PP; predicational adjunct; all adverb subclasses
adjunction, 13, 19, 23, 34, 111, 145, 149, 244, 288, 357, 464, 484, 507
  see also adjunct; argument, adjunction to; Directionality Principles, and left-adjunction in VP; phrase structure theory; right-adjunction; Spec position; X′ nodes, adjunction to
adjunction to X′ nodes, *see* X′ nodes
Adv-Criterion, 509
  see also adjunct, criterion
adverb
  definition of, 7
  effect, *see* Comp-trace effect
  movement, lack of, 6, 20, 34, 95, 111, 115, 177, 440, 477, 490; *see also* LFAR; UG, movement types allowed in
  stranding, 136–137, 144; *see also* VP-ellipsis
  see also all adverb subclasses
adverbial, definition of, 7
affectedness, 460, 496
again, *see* iterative adverb
agent-oriented adverb, 62, 65–66, 68, 70, 73, 83, 85, 115, 136, 406, 470
  classification, 54, 96, 322
  clausal/manner ambiguities, 59, 83, 86, 88, 90, 259, 268, 270, 473
  distribution, 38, 116, 160–162, 301, 405, 444
  linear order with respect to other elements, 19, 35, 52, 60, 80, 119, 124, 127, 131, 369, 479, 505
  semantics, 55, 58, 61, 69, 81, 115, 472–474
  topicalization, 138, 405–406
  see also subject-oriented adverb
[±Agr], 410–411, 414–416
  see also agreement, Agr(P)
agreement, 2, 34, 116, 391–392, 410–411, 415, 464, 486
  see also Agr(P); Spec-head agreement, [±Agr]
Agr(P), 237, 312–314, 314, 390–391, 396, 414–416
  AgrO(P), 31, 377, 487

as host for subjects or adverbs, 13, 93, 389
rejection of, 14, 31, 314, 316, 381–382, 433, 436, 491
see also [±Agr]; agreement
ambiguity, *see* scope, ambiguities of; clausal/manner ambiguities
anaphor binding, *see* binding, A-
antisymmetry, *see* phrase structure theory
argument/adjunct asymmetries, 411–412, 418, 511
argument, adjunction to, 13, 217, 469
argument vs. adjunct status, 457–458, 460, 481, 498–499, 511
see also argumental
argumentals, 265, 297, 307, 442, 447
see also argument vs. adjunct status
aspect, 9, 51, 85, 165, 300, 316, 319, 321–322, 382, 447, 456, 494, 501
as clausal node (Aspect), 11, 112–113, 166, 245, 300, 319, 453, 456, 499
aspect shift, 51, 320–321, 349
role in FEO Calculus, 46, 52, 320
see also [±Agr]; aspect-manner adverb; aspectual auxiliary; aspectual adverb; duration adjunct; frequency adjunct; operator, coercion
aspect-manner adverb, *see* manner adverbial, aspect
aspectual adverb, 133, 136, 138, 457
classification, 120, 327
distribution, 162, 325–326, 328, 342–347, 350, 356, 446, 448
linear order with respect to other elements, 116, 124, 304, 357–363, 365, 367–368, 370, 373, 503–504
scope, 125, 184, 357–360, 364, 373
semantics, 143, 305, 341–347, 374, 446
see also time-related adjunct
aspectual auxiliary, 31, 217, 311–313, 333, 445
interpretation with respect to chains, 46, 316, 318, 445
order with respect to adverbials, 4, 100, 102, 104, 333, 343, 374, 380, 444–445
see also auxiliary verb; head movement; perfective operator; progressive operator
aspectual operator, *see* operator, aspectual
aspectual structure focus, 459–460, 473, 495
assertion operator, *see* speech-act operator
asymmetry, *see* argument/adjunct asymmetries; phrase structure theory
auxiliary verb, 30, 40, 114, 117, 130, 189, 311–313, 327, 357, 385, 393, 432
and distribution of exocomparative adverbs, 109
and distribution of functional adverbs, 349, 353
and distribution of manner adverbs, 269, 281, 299, 304, 325, 424, 444
and distribution of speaker-oriented adverbs, 46, 98–99, 102, 104, 110, 115
and distribution of subject-oriented adverbs, 105–106, 109, 479
movement, 116–117, 119, 141, 315, 325, 353, 382, 398, 440
multiple adverb positions among, 140, 143, 206
role in FEO Calculus, 309–310, 322
role in scope interpretation, 35, 316, 384, 452; *see also* scope, with head movement; Scope Principle
selection of FEO by, 97, 119, 300
see also aspectual auxiliary; AuxRange; head movement; modal auxiliaries; passive construction; verb raising
AuxRange, 309–310, 316, 320, 322
adverb position in, 326, 328, 346–347, 349–351, 353–358, 383–385, 387, 451, 500
extended projection features, 248, 399
weight-theoretic effects in, 228, 242, 253, 334, 395, 405, 416, 482, 504
see also auxiliary verb; AuxRange Effect
AuxRange Effect, 227–228, 241–242, 247

B-class adverb, 120, 125, 162, 195, 386, 447, 457, 503–504
see also clausal-degree adverb
ba, 222, 311, 368, 491, 498, 499, 503
and the ceiling of the Low Range, 299–306
free ordering with respect to adverbials, 332, 336–337, 346, 350, 357, 444
and PF adjacency, 431, 463
backgrounding, *see* foregrounding/backgrounding
