<i>Preface</i>	ix

PART ONE THE ENVIRONMENT FOR MEDIEVAL ASTRONOMIES

1 Astronomies in cultures	3
Times and calendars	4
2 The heritage of astronomical practice	11
Prehistoric solar horizon calendars	11
Classical horizon systems	14
The stellar calendars of antiquity	15
Geometrical astronomy	17
Ptolemaic astronomy	20
The decline of observational calendars	24
Christianity and the Julian calendar	25
3 Astronomy and Christian thought	29
The scriptural background	30
Scriptural commentaries	31
Astrology and astral religion	38

PART TWO THE CULTIVATION OF EARLY MEDIEVAL ASTRONOMIES

4 Continuity and change in solar ritual	51
Calendar and ritual in Celtic Gaul	54
Christening the solar calendar	60
The context of solar rituals	69
5 Computing the central time – the date of Easter	77
Astronomical principles of Easter cycles	80
The early history of Easter computus	84

CONTENTS

	The Irish Paschal controversy	87
	The Paschal controversy in England	92
6	Observing the celestial order – monastic timekeeping	97
	Monastic prayer and astronomy	99
	The celestial order	101
	The astronomy of <i>De cursu stellarum</i>	104
	Monastic timekeeping after <i>De cursu</i>	110
7	Astronomy in the liberal arts	114
	Late Roman learning	117
	Antique learning in Ostrogothic Italy	122
	Astronomy in the Visigothic court	123
PART THREE THE HARVEST OF MEDIEVAL ASTRONOMIES		
8	The fusion of astronomical traditions	131
	Astronomy and court culture	140
	The reemergence of astrology	145
	Teaching computus	149
	The revival of the liberal arts	157
9	The encounter of Arabic and Latin astronomies	165
	Practical astronomies at Córdoba and Gorze	166
	The astrolabe	171
	All things in number and measure	180
10	The rebirth of Ptolemaic astronomy	188
	Translators and translations	188
	Universities and the new learning	190
	The <i>corpus astronomicum</i>	192
	The introduction to astronomy – <i>De sphaera</i>	193
	Computus and the calendar	198
	Observing the heavens – instrument texts	202
	The theory of the planets – <i>Theorica planetarum</i>	203
	Astronomy outside the universities	204
	The legacy of early medieval astronomies	206
	<i>Bibliography</i>	209
	<i>Index</i>	229
