- Abandonment 36, 200, 202, 332, 348, 357
- Acknowledgment of deviant condition or stigma 44, 100, 101–102, 315, 317, 319, 325
- ADHD (attention-deficit hyperactivity disorder) 268–269
- Affiliation loss 281–283
- African-Americans 38, 55, 83, 91–92, 93, 95–96, 98–99, 104–105, 108, 126–128, 132, 133–134, 135–136, 139, 140, 143, 148, 149–150, 153, 154, 155, 156, 157, 158, 167–169, 177–178, 179, 231, 261, 275, 285, 287–288, 291, 294, 329, 349, 351, 353, 355
- Aggression as deviant behavior 16, 78
- Aggression as response to deviance 126–130
- in evolutionary perspective 25, 26, 31, 34
- indirect vs. direct 125–130, 136, 156
- inhibition of (see also Forgiveness) 36, 129, 197, 199, 349
- interracial aggression 127–128
- situational influences on 125, 130–132
- use of Taylor paradigm in research on 125, 127, 128
- use of teacher-learner paradigm in research on 125, 126–127, 128
- AIDS (acquired immune deficiency syndrome) 72, 78, 85, 89, 91, 104, 106, 143, 155, 253, 255, 272, 315, 320–321, 350, 360
- Alcoholism 43, 74, 80, 216
- Altruism (see also Care (C) system, Helping)
- based on kinship or inclusive fitness 26, 33, 34–44
- based on reciprocity 35, 38–41, 189, 201
- Ambivalence (see also Automatic and controlled processes) 44, 95, 96, 104, 117, 145, 157, 201, 202, 209, 210, 228, 324
- Amputation 74, 78, 284, 357
- Amygdala 55, 153, 154, 155, 349, 354
- Anger (see Fight-or-flight (FF) system)
- Anxiety (see also Ambivalence)
- interaction anxiety 110, 144–152
- Assimilation and contrast effects 42–43, 95, 98, 99, 104, 105
- Attachment security 138–139, 200, 360
- Attributional ambiguity 274
- Authoritarianism 166, 167, 355–356
- and rejection of deviant conditions 166–168, 171–174
- and values 172–174, 175–176
- Automatic and controlled processes (see also Ambivalence, Dual-process models)
- integrative model of automatic and controlled processes 114–117
- determinants of initial motivational state 117–120
- factors moderating influence of initial motivational state 120–122
- measurement of automatic processes 152–156
- motives for controlling automatic processes 113–114
- variables affecting dissociation between 156–160
- “Aversive racism” 133
- Avoidance (see Escape and avoidance)
- Awareness of stereotypes 272
- “Baby talk” 247
- Beggars 38, 205
- Bible 206–207
- Big Five personality traits 177
- Blacks (see African-Americans)
- Blaming the victim 326
- Blindness 9, 74, 137, 225, 229, 272
- Bogus pipeline 180, 355
- Burnout among caregivers 330
- Cancer 70, 71, 76, 90–91, 100, 101–102, 263, 317, 321, 330, 334, 360

- Care (C) system
 relation with egalitarianism 164–178
 and emotions 49, 51–54
 evolutionary origin of 34–44
 heritability of 176
 and inhibitory relationship with FF system 49–51
 as neglected motive in social control 17, 26, 63–64
 neurophysiological aspects of 56–57
 and oxytocin 57
 and parental care 35, 56
 sex differences in activation of 57
 and social control in Category 1 and 3 societies 197–204, 208–211
- Cheaters (see also Social parasitism) 26, 38, 40, 41, 50, 62, 63, 205, 209
- Child abuse 76, 80, 83, 117, 118, 347
- Chronic illness (see Disability)
- Civil inattention 108, 146, 147, 152, 312
- Collectivism-individualism (see also Societies) 192–193, 213–227
- Color blind perspective 10
- Compensation by individuals with deviant conditions 276, 286
- Computational psychology (see Mentalism)
- Concealability of deviant condition 250–253
- Conservatism (see also Authoritarianism) 166–168, 356, 361
- Contact hypothesis 21, 327, 328–330, 352, 360
 meta-analysis of studies on 327, 328, 329
 role of emotions in 328
 and ultimate goals of contact interventions 329–330
- Contempt 43, 54, 83, 207, 260, 324
- Contrast effects (see Assimilation and contrast effects)
- Controllability (see Responsibility)
- Controlled processes (see Automatic and controlled processes)
- Coping of persons with deviant conditions 257–267
 effects on perceivers (see also Acknowledgment) 100–102
 emotion-focused vs. problem-focused 265–266
 costs of emotion-focused coping 266
 long-term coping strategies 259–267
 attribution to prejudice and discrimination 262–263
 group formation and membership 260
 reduction of the deviant condition 259–260
 social comparison 263–265
 social creativity 261–262
 and responses to specific negative reactions 257–258
- Crime 15, 32, 34, 41, 63, 90, 94, 113, 204, 205, 211, 316, 320
- Cross-cultural psychology (see Culture)
- Culture (see also Societies)
 approaches to studying cultural differences 168, 184–188
 cultural dimensions and categories of societies 170, 188–196
 collectivism-individualism 192–193, 213–227
 complexity 193–194
 egalitarian vs. hierarchical organization 193
 idiosyncratic cultural influences on responses to deviance 227–232
 deafness 229
 homosexuality 228–229, 230
 mental illness 229
 obesity 227, 230, 236–240
- Deafness 229, 289, 353
- Depression (see also Mental illness) 74, 100, 211, 243, 244, 282, 298
- Developing countries (see Western versus non-Western societies)
- Deviance (deviant conditions) (see also Mental representations of deviance)
 active vs. passive 16, 32, 166–167, 253
 basic types of
 Type 1 (uncontrollable-active) 31
 Type 2 (controllable-active) 32
 Type 3 (uncontrollable-passive) 36
 Type 4 (controllable-passive) 36–37
 categories of Type 4 deviance 37–38
 complexity of 91–92
 controllability of 32
 individual-related vs. group-related 266–267, 351
 meaning of 4–5
 multiple deviant conditions 38
 primary vs. secondary 8
 reluctance to use term of 5, 9
 and stigma 9, 234
 universal validity of classification of 233
 and visibility (see also Concealability) 72, 79, 250, 348
- Deviant career 9
- Diabetes 77, 79, 210

 and negative responses to deviance (prejudice) 178–179
 and the care system 57, 178–179
- Sexual reproduction 46–47, 189, 346–347
- Shaman 201, 229
- Shame 41, 53, 198, 250, 361
- Shaming
 public 199, 211, 333, 334
 reintegrative 332
- “Sick role” 41, 43, 102, 321, 327
- Smoking 14, 15, 37, 42, 72, 76, 77, 210, 334, 339
- Social control
 adaptive psychological mechanisms for 29
 evolution of social control 14–16, 27–30
 meaning of 4
 types of social control
 empirical distinctions between types 14–16, 27–30
 repair 4–6
 stigmatization 6–10
 tolerance 10–14
- Social dominance orientation (SDO)
 and rejection of persons with deviant conditions 171–174
 and relation with liberalism/egalitarianism 174–175
 and values 172–176
- Social model of disability (see Disability movement)
- Social parasitism (see also Cheaters) 12, 37, 54, 199, 209, 334, 336
- Societies (see also Culture)
 Category 1 (simple-egalitarian-collectivistic) societies 197–204
 Category 2 (moderately complex-hierarchical-collectivistic) societies 204–208
 Category 3 (very complex-egalitarian-individualistic) societies 208–211
- Socio-economic status of persons with deviant conditions 290–294
 African-Americans 291
 elderly 293
 homosexuals 292
 mentally ill 292–293
 obese 291–292
 physically disabled 293
- Stereotype (see Mental representations of deviance)
- Stereotype awareness 272
- Stereotype threat 287–289
- Stereotyping (see Mental representations of deviance)
- Stigma (See also Deviance (deviant conditions)) 234
 acknowledgment of (see Acknowledgment)
 consciousness of 298–299
 “courtesy” stigma (stigma-by-association) 345–346
 enacted vs. felt stigma 298
 endorsement by persons with deviant conditions 283–285
 “groupiness” of 266–267, 351
 and mass media 284
 meaning of 8
- Stigmatization (see also Social control)
 6–10
 defined 6
- Suppression (see also Automatic and controlled processes) 113, 114, 120, 148, 150
 and adherence to social norms 170–171
 and Care (C) system 168–171
 internal vs. external motivation 169, 355
 and “rebound” effects 148, 251
 and tolerance 12
