[More information](#)314 *Wavelets: Calderón-Zygmund and multilinear operators*

- paradifferential operator 85, 277, 285
- paraproduct 74, 208, 280
- pseudo-differential operator 77, 89, 116
- pseudo-product 44, 58, 73, 83, 144
  
- regularizing operator 4, 92, 285
- renormalization constants 6, 20, 49
- Riesz transforms 1, 65, 88, 240
- rising sun lemma 101
  
- Schur's lemma 54, 138
- single-layer potential 267
- singular integral 7, 24, 48, 30
- Sobolev spaces 1, 122
- special atom 64
- strict convergence 203
- symbol 77, 92
- symbolic calculus 4, 66, 78, 86, 129, 215, 229, 285, 288
  
- $T(1)$  theorem 50
- $T(b)$  theorem 142
- transference 185
  
- vaguelets 56, 137
- von Neumann's inequality 233
  
- wavelets 7, 23, 47, 51, 65, 67, 78, 82, 84, 87, 117, 121, 127, 132, 142, 177, 207, 294
- weak  $L^1$  14, 35
- weakly continuous operator 46
- Wiener algebra 197
