

## Contents

<i>Preface</i>	<i>page</i>	vii
1	Contractions	1
2	Nonexpansive Maps	12
3	Continuation Methods for Contractive and Nonexpansive Mappings	19
4	The Theorems of Brouwer, Schauder and Mönch	28
5	Nonlinear Alternatives of Leray–Schauder Type	48
6	Continuation Principles for Condensing Maps	65
7	Fixed Point Theorems in Conical Shells	78
8	Fixed Point Theory in Hausdorff Locally Convex Linear Topological Spaces	94
9	Contractive and Nonexpansive Multivalued Maps	112
10	Multivalued Maps with Continuous Selections	120
11	Multivalued Maps with Closed Graph	130
12	Degree Theory	142
	<i>Bibliography</i>	159
	<i>Index</i>	169
