Subject index

- ablaut 308
 adjuncts 58, 227
 arguments vs. adjuncts 58–60
 complements vs. adjuncts 87–89, 187–188
 adverbial clause (= clausal adjunct) 219,
 227–230, 240
 adversatives 279–280
 agreement 17, 56, 62, 80, 111–116, 118, 138,
 189
 concord (= agreement with N) 117
 possessor agreement 93, 116–117, 245n.11
 allomorphy 288–301
 lexically conditioned 290, 291 (see also
 inflectional classes)
 morphologically conditioned 291–292
 phonologically conditioned 289, 291, 294
 ambiguity 26, 165
 lexical 27
 structural 27, 52
 anaphora vs. deixis 136–137
 animacy 110 (see also *person–animacy*
 hierarchy)
 applicative 273–274
 apposition 138, 327, 333n.8
 argument structure 68
 arguments 53, 58, 62
 aspect 147, 152–157
 lexical aspect 152–154
 perfective vs. imperfective 154–157
 telicity 154, 156
 case 102–111, 116, 117, 140
 ergative vs. accusative 105–107, 118
 grammatical vs. semantic 103–104, 118
 causatives 260, 277–278
 circumfix 254, 257, 279, 307
 classifiers 128, 131, 133–134
 clause 32, 53
 attributive clause 175, 178
 equative clause 175, 178
 existential clause 181, 190, 195n.17
 locative clause 175, 178
 meteorological clause 186, 212
 clause-mates 76
 clitic 99, 101n.5, 208, 209, 213, 217n.8,
 316–329
 clitic climbing 326
 clitic doubling 328
 clitic vs. affix 318–319, 325–329
 phrasal affix 322
 second position clitics 323–324
 simple clitics 320–322, 329
 special clitics 320, 322–325, 329
 collocational clash (see *selectional*
 restrictions)
 complement 37, 75, 87
 complement clause 219, 220–225, 240
 complementary distribution 16, 20, 116, 289,
 326, 327
 complementizer 220
 compositionality of meaning 8
 compounds 14, 248–249
 consonant mutation 308
 constituents 26, 27, 28–32, 40, 47
 AP constituent 90–92
 constituency tests 30–32
 discontinuous 29, 195n.7
 N' (“N-bar”) 97–98
 S' (“S-bar”) 221
 VP constituent 81–82
 coordination 91, 218–219
 copula 173, 176–177, 178, 181–185
 defective verbs 181
 diminutives 254–255
 dummy subject 186
 ellipsis 37
 ergativity 105–110
 ergative agreement 114–116
 split ergativity 107–110, 118
 extraposition 221
 focus 198, 205, 208, 209, 213, 217n.9
 gender 128–131, 133–134, 139, 299
 common gender 134
 grammatical hierarchy 33, 38

- Grammatical Relations (GRs) 29, 55–58, 78, 272
 primary vs. secondary objects 61–62, 287n.4
 semantically restricted 79, 86n.7
 terms vs. oblique arguments 57–58, 62
- imperative 186, 199–203
- impersonal clauses 185–187
- incorporation 23, 280–282
- infix 149, 162, 257, 304, 305–306
- inflection vs. derivation 247, 250–253, 259–262, 290
- inflectional classes 297–299, 300
 conjugations 298
 declensions 298
