

## Index

- adaptationism, 11–12, 46  
 Aristotle, xi, 1, 35, 33–37, 40–41, 43
- constraint, developmental, 105–106, 125  
 autonomy, 37, 70–71, 85–86
- development, creative, xv, 43, 73, 76, 78, 86–87, 90, 115, 129  
 developmental systems theory, xv, 76–77, 109, 110, 112–130, 134, 138  
 Driesch, Hans, xiv, 23–26, 33, 68, 70, 132
- embryology, xiii, xv, 23–26, 58–61, 68, 93, 112, 132  
   evolutionary, xiii, 94–95  
 experimental, xiii, 23, 112  
 emergence, xi, 14, 20, 26, 42–43, 50, 53–54, 97–98, 121–124, 129, 131–132  
*Entwicklungsmechanik*, 23–25, 58, 63, 64, 95  
 epigenesis, xiv, 23, 26–31, 33–43, 54, 56–57, 63, 72, 115, 132–133  
 epigenetics, xv, 27, 30, 39, 63–66, 98, 105, 110, 111, 134–135  
   constitutive, xv, 73–76, 78, 87, 90, 119, 129, 136  
   molecular, 64–66, 74, 134–135  
 evolution, xv, 28, 30–33, 46–48, 88–89, 93–108, 117–118, 125–126, 130  
 evolutionary developmental biology (evo-devo), xi, xv, 21, 31–33, 91–92, 95–119, 122, 125–130, 136–137  
 evolvability, 104, 107, 124, 125, 129–130
- gene activation, xi, xiii, 8, 17, 22, 34, 37, 42, 44, 50, 56, 57, 62, 63, 65, 116, 129  
 gene expression, xiv, 16–17, 27, 28, 47, 57, 60, 64–65, 93, 98, 110, 111, 129  
 generative entrenchment, 125–127, 130, 139  
 genetic assimilation, 29–30, 112  
 genetic programme, xiv, 8, 31, 34–37, 39, 43, 46, 49–54, 67–68, 86, 89, 113, 115, 122, 130, 135  
 genome sequence, xii, xiii, 4, 7, 20, 42, 77, 128  
 genotype, xii, 16, 19, 30, 38–39, 47, 56, 59–60, 62–63, 66–67, 72–74, 79–82, 97
- Haeckel, Ernst, 94–95, 126  
 heuristics, xiv, 2–22, 128  
   and biases, xiv, 3, 9, 11, 18, 20  
   constant factor principle, 10, 15–20  
   context simplification, 5, 7, 9, 16, 17  
   hedgeless hedge, 10–19
- homeobox genes, xiv, 12–15, 27–30, 96, 104, 110–111, 131, 137–138  
   as master control genes, 12, 27–28, 30–31
- information, 28, 34, 36, 37, 39–49, 53, 56–57, 63, 66, 90, 113, 115, 118, 121, 134  
   developmental, 28, 37, 62, 86, 111, 113, 115, 118–119  
   genetic, xiv, 31, 36, 39–40, 49, 50, 53, 54, 67, 73, 91, 113, 115, 119, 120, 129  
   causal accounts of, 44–45, 48  
   intentional accounts of, 44–48
- interaction, xiii, xiv, 5, 8, 19, 30, 50, 56–58, 74, 62–78, 89–91, 97, 110, 113–117, 122, 125, 126, 128, 130, 134
- interactionist consensus, xiii, 2, 4, 5, 13, 37, 38, 57–58, 62, 84, 113, 116

Cambridge University Press

0521824672 - Embryology, Epigenesis, and Evolution: Taking Development Seriously

Jason Scott Robert

Index

[More information](#)*Index*

- metaphors of development, xiii, xiv, 8, 12, 22, 27–28, 30–31, 34, 34–37, 39, 41–42, 48–50, 55, 61, 67–68, 73–74, 86, 90, 91, 113, 115, 130, 134, 136  
(see also particular metaphors)
- model systems, 4, 6, 47, 51, 60, 78–84, 120
- modern consensus, xv, 34, 38–56, 66, 86, 90, 89–90, 107–111, 113, 115, 117–119, 129, 130, 138
- genetic animism, 39, 48–54, 56, 72, 90, 111, 119
- genetic informationism, 39, 43–49, 56, 90, 118, 119
- genetic primacy, 39, 57–58, 61–63, 67, 72, 75, 90, 118, 119, 130
- Modern Synthesis, xiii, 72, 93–95, 97, 103, 105
- modularity, 14, 98, 104, 122–125, 127, 129–130, 138
- Morgan, Thomas Hunt, 58–61
- morphogenetic field, 112
- nature and nurture, xiv, 4–5, 38, 44, 84, 113, 131
- niche construction, 78, 88–90, 117, 122, 136
- norm of reaction, 80
- organism-centred biology, xv, 22, 52, 68, 67–68, 73, 86, 129
- phenotype, xii, 5, 19, 30, 38–39, 42, 45, 47, 56, 60, 62–63, 66–67, 72–74, 79–82, 97
- plasticity, 79–82
- preformation, xiv, 23, 24, 26, 33–43, 49, 53–54, 56–57, 59–60, 72, 111, 115, 118, 132–133
- reductionism, 4, 10, 12–15, 20–22, 53–54, 57, 73, 93, 98, 121–122, 132, 136
- reproduction, 60, 72, 84, 89
- robustness, xi, 85–86
- Roux, Wilhelm, xiv, 23–26, 33, 59, 63, 64, 95, 132
- Russell, E.S., 68–72, 77, 85, 135
- systemism, 20–21, 53, 66, 69, 72, 118, 122, 128
- triggering, xiv, 8, 12, 34, 37, 40, 41, 44, 57–58, 87, 115, 116
- vitalism, xi, 25, 36–39, 43, 53, 57, 68, 70
- Waddington, C.H., 26, 29, 63–65, 134
- Weismann, August, 59
- Woodger, J.H., 15–20
