

Index

Page references in bold indicate an illustration; ‘t’ following a page reference indicates material presented in tabular form.

- α_1 -antitrypsin deficiency and intracranial aneurysm, 359
- abdominal trauma**
 - accidental, 22, 22–3, **64**
 - cardiopulmonary resuscitation, 143
 - inflicted, 108–9, **123, 124, plate 4**
- abortion**, 429
- abscess and upper airway obstruction**, 175–6, 176
- abuse, fatal**
 - autopsy checklist, 612
 - cardiac laceration, **123**
 - characteristic features, 81t
 - conditions confused with, 114
 - anal lesions, **113, 114**
 - Mongolian blue spot, **112**
 - osteogenesis imperfecta, **120**
 - frequency of death, 78
 - pseudoabuse, **111, 143–4**
 - radiological studies, 98–9, 105, **117, 118, 119**
 - ritual, 137
 - sites of injury, 81t
 - subtle abuse, 113–14, 116
 - see also* **abdominal trauma; asphyxia; craniocerebral trauma; falls from heights; homicide; Munchausen syndrome by proxy; neglect, fatal; poisoning; shaken infant syndrome; skeletal injury; skin injury and soft tissue injury**
- acceleration/deceleration in brain injury**, 24, 88–9
- accessory conduction pathways**, 233–4
- accidental death**
 - animal-related, 49, **59, 64**
 - causes, 11–12, 12t, 13t
 - drug and substance abuse, 50, 52, 54, 58
 - electrocution, 43, 45, **55**
 - embolism, 39–41

- accidental death** (*cont.*)
 entrapment, 12, **12**, **63**
 farm accidents, 46–7
 fire deaths, 41, 43, **53**
 frequency, 11
 sporting deaths, 63
see also **abdominal trauma; asphyxia; commotio cordis; craniocerebral trauma; drowning; hyperthermia; hypothermia; motor vehicle accidents; poisoning; pregnancy, complications of and therapeutic misadventure**
- accidental injury contrasted with inflicted**, 77, 82
 bruises, 99, 102
 burns/scalds, 110, 111, 112, 113t
 skull fractures, 86–7
- achondroplasia**, 475–6, **475**, **476**
 intracranial aneurysm, 359
- acoustic neuroma and neurofibromatosis**, 380
- acquired immunodeficiency syndrome**, 195–6
- acyl-coA dehydrogenase deficiencies**, 442, 444
 autopsy checklist, 585, 613–14
- Addison disease**, 457
 tuberculosis, 181
- adenoids, hypertrophy**, 333
- adenoma, congenital pleomorphic**, 333
- adenoma sebaceum**, 377
- adenovirus**, 180, 190
- adrenal hemorrhage**
 congenital asplenia, 194
 meningitis, 183, **plate 8**
- adrenal hyperplasia**, 457, 459, **459**
 cerebrovascular accident, 373
- adrenal hypoplasia**, 457
- adrenal insufficiency, in asthma**, 330
- Aesop, advice to SIDS researchers**, 519
- agammaglobulinemia of Bruton, x-linked**, 192–3
- AIDS**, 195–6
- air embolism, in asthma**, 330
- airway obstruction, upper**, 331–40, 342–3
 abscess, 175–6, **176**
 anaphylaxis, **481**, 481–2
 anatomy, normal, 521
 associated conditions, 332t
 diphtheria, 178
 epiglottitis, swelling of, **481**
 epiglottitis, acute, 176, **plate 6**
 foreign body obstruction, **16**, 35–7, **45**, **46**, **47**, **48**, **49**, **419**
 hemangioma, **286**
 hemophilia, 401
 hemorrhage, laryngeal inlet, 402, **403**
 infectious mononucleosis, 181
 laryngotracheobronchitis, acute, 177–8
 miscellaneous causes, 339–40, 342–3
 pulmonary hypertension, 294
 therapeutic misadventure, 64
 tonsillar hypertrophy, **182**
- alcohol**
 abuse, 58
 drowning, role in, 28
 Gin Alley, 9
 overlaying, role in, 494
- alkaptonuria and intracranial aneurysm**, 359
- Alport syndrome and fibromuscular dysplasia**, 298
- ALTE (apparent life threatening events)**, 519–20, 520t
- alveolar dysplasia, congenital, and pulmonary hypertension**, 294
- alveolar hypoventilation**
see **Pickwickian syndrome**
- amino acid disorders**, 446–7
- amniotic fluid embolism**, 432
- amphetamines**
 abuse of, 56, 58, **62**
 failure to thrive, 117–18, **127**
- anal lesions**, 113, **114**
- anaphylaxis**, **481**, 481–2
 during anesthesia, 64
 hydatid disease, 188
- anaplastic crisis in sickle cell disease**, 394
- anemia**, 405–6
 hereditary spherocytosis (blood film), **405**
 intracerebral hemorrhage in, **406**
see also **sickle cell disease**
- anesthesia-related death**, 63–4
- aneurysm**
 AIDS 195–6
 coronary artery, congenital, 279
 intracranial, 283, 358–60, **361**
 familial granulomatous arteritis, 256
 Kawasaki disease, 273, **273**, **274**, 275, **275**
 Marfan syndrome, 470–1
 pulmonary artery, **309**
 traumatic, 359
 vein of Galen, 360
- angiodysplasia and intestinal hemorrhage**, 421
- angiography, post-mortem**
 anomalous coronary arteries, 263
 Kawasaki disease, 273, **274**
 total anomalous pulmonary venous drainage, 282
- animal-related injuries**, 49, 59, **64**
- aniridia-Wilms tumor complex and hypertrophic cardiomyopathy**, 211
- Anitschkow cells**, 170, **172**
- anomalous coronary arteries**
see **coronary arteries, anomalous**

- anorexia nervosa**, 422–3
- antithrombin III deficiency, risk of vascular thrombosis in**, 402
- aorta, abnormalities of**, 249–56
 branch stenosis, and supravalvular aortic stenosis, 251
 hypoplasia, 209, 251, 479
 hypoplastic left heart syndrome, 207
 outflow obstruction, 249–50
 rupture, 175, 251
 vascular rings, 254
 see also **aorta, coarctation of; aortitis; cystic medial necrosis; DiGeorge syndrome; ductus arteriosus; supravalvular aortic stenosis; vascular rings and William syndrome**
- aorta, accidental injury to**, 18–20, 19t
 transection, 19
- aorta, coarctation of**, 251–2, 252
 aortitis, 174
 intracranial aneurysm, 359
 Noonan syndrome, 479
 subaortic stenosis, 223
 supravalvular aortic stenosis, 251
 Turner syndrome, 479
 vegetations, 175
 William syndrome, 253
