- 1702 Chair
- appointment of Alan Battersby, 270
  - appointment of Alexander Robertus Todd, 200, 213
  - appointment of George Downing Liveing, 168
  - appointment of Isaac Pennington, 85–86
  - appointment of James Cumming, 142
  - appointment of John Francis Vigani, 31
  - appointment of John Hadley, 45
  - appointment of John Mickleburgh, 45
  - appointment of John Waller, 45
  - appointment of Ralph Alexander Raphael, 247, 269
  - appointment of Richard Watson, 60
  - appointment of Smithson Tennant, 107
  - appointment of Steven Victor Ley, 280, 283
  - appointment of William Farish, 103
  - appointment of William Jackson Pope, 190
  - death in office of James Cumming, 156
  - death in office of John Francis Vigani, 37
  - death in office of John Hadley, 60
  - death in office of John Mickleburgh, 45
  - death in office of John Waller, 10
  - death in office of Smithson Tennant, 134
  - death in office of William Jackson Pope, 199
  - election procedure in 1771–73, 85
  - election procedure in 1813–15, 1, 142, 205
  - endowed by BP, 270
  - endowment, 61
  - possible appointment of Alan Battersby, 269
  - renamed BP 1702 Chair, 280
  - renamed Chair of Organic Chemistry, 216
  - resignation of Alexander Robertus Todd, 233, 247, 269
  - resignation of George Downing Liveing, 184
  - resignation of Isaac Pennington, 103
  - resignation of Richard Watson, 66
  - resignation of William Farish, 105, 142
  - retirement of Alan Battersby, 280
  - retirement of Ralph Alexander Raphael, 253
- aaptamine, 249, 250
- actomyosin, 224
- Addenbrooke's Hospital, Cambridge, 85, 87, 253
- adenosine triphosphate, 222, 223
- Agricola, Georg, 44
- Alchemists' Club, Glasgow, 245
- Alexander, Albert Ernest, 204
- alkaloids, 259, 263, 265, 266, 269, 273, 274
- and chemotherapy, 264
  - biosynthesis of, 261, 263, 264
  - indole family, 264
- Allan Glen's School, Glasgow, 210
- Amati, Nicola, 253
- amatol, 204
- Ampère, André-Marie, 157, 159
- Anderson's College, Glasgow, 179
- Andrew, Raymond, 204
- Anglicanism, 2, 3, 15
- anthocyanins, 210, 217, 232
- anti-gas respirators, 181
- anti-leukaemic compounds, 248
- anti-malarials, 204
- Antiphlogistians, 85, 93
- anti-tumour agents, 295
- aphids, 232
