

## Contents

Foreword.....	vii
On Christian de Duve: An Editor's Appreciation .....	x
General Introduction .....	1
1 Building Blocks.....	6
2 Homochirality.....	10
3 Protometabolism .....	15
4 ATP .....	25
5 Electrons and Protons.....	41
6 Thioesters .....	54
7 RNA.....	66
8 Proteins.....	88
9 DNA .....	112
10 Membranes .....	118
11 Protonmotive Force .....	133

12	Protometabolism Revisited .....	149
13	The LUCA.....	161
14	The First Fork .....	170
15	Eukaryotes .....	186
16	Oxygen.....	199
17	Endosymbionts.....	203
18	Multicellulars.....	214
19	Homo.....	221
20	Evolution .....	231
	Final Comments .....	238
	Bibliography .....	241
	Index.....	251
