## INDEX

For the names of leaders who have chapters of their own, the number of the chapter is followed by page references for information on them in other chapters. Provinces or other portions of countries are listed under the country to which they belonged in 1939 (except for Austria and Manchuria), while cities are listed separately. The names used at the time are employed here even if the name of the city or territory changed after World War II. The occasional mention of subsequent names is to assist the reader and has no political connotation.
