The English School of International Relations

What is the English School of International Relations and why is there an accelerating growth of interest in it? Linklater and Suganami, two leading commentators, provide a comprehensive account of this distinctive approach to the study of world politics which highlights coexistence and cooperation, as well as conflict, in the relations between sovereign states. In the first book-length volume of its kind, the authors present a comprehensive discussion of the rise and development of the English School, its principal research agenda, and its epistemological and methodological foundations. The authors further consider the English School's position on progress in world politics, its relationship with Kantian thought, its conception of a sociology of states-systems, and its approach to good international citizenship as a means of reducing harm in world politics. Lucidly written and unprecedented in its coverage, this book is essential reading for anyone interested in International Politics and Politics worldwide.

ANDREW LINKLATER is the Woodrow Wilson Professor of International Politics at the University of Wales, Aberystwyth. He is the author of *The Transformation of Political Community* (1998), *Beyond Realism and Marxism* (1990), and *Men and Citizens in the Theory of International Relations* (2nd edition, 1990).

HIDEMI SUGANAMI is Professor of International Politics at the University of Wales, Aberystwyth. Previous publications include *On the Causes of War* (1996) and *The Domestic Analogy and World Order Proposals* (1989).
