Cambridge University Press has no responsibility for the persistence or  
 accuracy of URLs for external or third-party internet websites referred to  
 in this publication and does not guarantee that any content on such  
 websites is, or will remain, accurate or appropriate.

Every effort has been made in preparing this publication to provide accurate and  
 up-to-date information which is in accord with accepted standards and practice at  
 the time of publication. Although case histories are drawn from actual cases, every  
 effort has been made to disguise the identities of the individuals involved.  
 Nevertheless, the authors, editors and publishers can make no warranties that the  
 information contained herein is totally free from error, not least because clinical  
 standards are constantly changing through research and regulation. The authors,  
 editors and publishers therefore disclaim all liability for direct or consequential  
 damages resulting from the use of material contained in this publication. Readers  
 are strongly advised to pay careful attention to information provided by the  
 manufacturer of any drugs or equipment that they plan to use.
