 - sequencing modules 55–6
 - short/executive education courses 64–9
 - student version of syllabus 58–63
 - syllabus contents framework 52–3
 - teaching plan 63
- teacher
 - effects on learning outcome 13, 18–19
 - effects of dress style and gestures 228–30
 - influence of instructor's VABEs 481–3
 - learning how to teach 18–19
 - personal characteristics 18–19
- teaching
 - and learning 8–9
 - avoiding 'overteaching' 46–7
 - doctoral students instructor training 3–5, 7–8
 - fundamental elements 13–25
 - instructional content for different levels 30–2
 - interrelations between elements 13, 23–4
 - learning level targeted 26–30
 - modifying belief systems 31–2
 - providing for different learning styles 45–6, 83–4
 - reviewing your beliefs about 481–3
 - scholarship of teaching 463–4, 468–71
 - systems view 13–14
 - taking account of cognitive styles 17–18
 - teaching evaluations 351–69
 - conventions of courtesy 359
 - effectiveness of different types 364–6
 - implications for instructor development 366–8
 - peer evaluations 353–9, 364–5, 368
 - potential impacts 351
 - reasons for doing 351–2
 - reputations gained by instructors 367
 - self-assessments 359–61, 364
 - student evaluations of teaching 361–4, 365–6
 - videotape self-assessment 361
 - your teaching philosophy and goals 367–8
- teaching plan (in syllabus) 63
- teaching portfolios 462–8
 - criticisms 467
 - current resources 467–8
 - preparation process 464–7
 - reasons for preparation 463–4
 - scholarship of teaching 463–4
 - what to include 464–6
 - see also* course portfolios
- teaching vs research in institutions 14–15
- team projects
 - reports 330–2
- technology support 300–2
- technology use in teaching 275–302
 - archive of in-class materials 299
 - assignment submission tools 299–300
 - business simulations and courseware 282–4
 - class Web site 278, 279, 299
 - digitising video material to DVD format 298
 - e-books 280
 - e-mail 278, 279
 - electronic content for in-class use 293–8
 - in-class technology infrastructure 290–3
 - in-class technology use 288–98
 - interactive e-learning tutorials 284–5
 - learning management systems (LMS) 276, 278–9
 - multimedia cases 280–2, 297

- technology use in teaching (*cont.*)
 networking in the classroom 289, 290
 polling 297, 299
 post-class reflection and exercises 299
 PowerPoint™ technique 289, 290
 pre-class polls, surveys and study questions 288
 pre-class preparation and exercises 275–88
 pre-class support technology infrastructure 276–7
 simulations for in-class use 293–7
 simultaneous delivery of classes 291–2
 streaming video presentations 286–8
 student portals 276–7
 summary of technology best practice 302
 synched slide presentations on the LMS 285–6
 team project technology support 300–2
 video-conferencing guest speakers 297
 video-conferencing of classes 291–2
 term paper projects 329–30
 time management 454–61
 aspects of adult life 457–8
- balancing your life 454–9
 energy management 459–61
- university instructors, teaching challenges 5–6, 7–8
- VABEs (values, assumptions, beliefs and expectations) 26–30, 31–2
 discovering students' 29–30
 influence of instructor's 481–3
 learning Level 3 26–30, 31–2
 modifying through teaching 31–2
 video-conferencing guest speakers 297
 video-conferencing of classes 291–2
 visible behavior, learning Level 1 26–30, 30–1
- visual aids *see* audiovisual (AV) tools
 visual information-processing style 45–6
