   Environmental Problem Solving 5–6  
   marine spills 66

- Ford Foundation, *see* Innovations in American Government
- fraud in  
 credit card industry 188–90  
 Earned Income Tax Credits (EITC) 184–86  
 health care 246–47  
*French Connection* 27, 31  
 functions  
 assigning credit to 126, 134–36  
 representing form of professionalism 48, 123
- Goldstein, Herman 94, 97–98, 256–57
- Government Performance & Results Act (GPRA 1993) 103, 124
- Graham, John D. 40–41
- Great Lakes Project (US EPA) 87, 112–13, 116
- health-care fraud, *see* fraud
- heuristics 12
- high-level harms, *see* properties
- highway  
 accidents 11, 33  
 fatality reduction exercise 101–120
- holism 40–41
- hostile settings, *see* properties
- Hutter, Bridget 217
- incidents  
 contrasted with patterns 10  
 response to 79
- innovations, *product v. technology* 74–77
- Innovations in American Government (competition) 62–66
- intelligence, tools of 208–9
- Internal Revenue Service (IRS)  
 Earned Income Tax Credit (EITC fraud) 184–86  
 non-filer problem 56–57, 182–83  
 Telefile program 62
- Intervention-related activity measures (IRAMs) 191–94
- invisible harms, *see* properties
- Johnston, Michael 233–34
- Kahneman, Daniel 12
- Katrina*, hurricane 221–22
- knots, undoing (analogy) 8–9, 32–33, 55, 66–67
- law of conservation of projects* 160
- lead levels, bridge painters 7
- leap-to-action* syndrome 159
- Leipziger, Danny 255–6
- levees 221–22
- macro-level analysis of risks 13, 34, 41–43, 79–83
- managerial infrastructure 160–62
- Millennium Declaration (United Nations) 1
- NASA (Challenger) 245
- near-miss analysis 223–24
- Netherlands  
 railway safety 6–7
- networks, vulnerabilities of 31
- New Orleans, *see* Katrina
- New Public Management 103, 124
- New South Wales police 214
- Nigel (as prototypical analyst) 106–10, 113, 134, 258–59
- Nigeria, piracy of copyrighted materials 6
- Nixon, Christine (Commissioner, Victoria police) 190–91
- Not-for-profit sector 4, 77–78, 127
- Nova Scotia, Department of Labor & Environment 6
- nursing home fires 138, 140
- Occupational Safety & Health Administration (OSHA)  
 blood lead levels for bridge painters 7  
 lacerations on poultry production lines 93–94  
 problem-solving approach to hazard mitigation 60–61
- Ontario Electrical Safety Authority 7
- Operation Ceasefire, *see* Boston Gun Control Project
- Operation Centurion 237–39

- Parsippany, New Jersey (OSHA Area Office) 7, 61
- partial controls, effects of 221–22
- Pension Benefit Guaranty Corporation 66
- performance-based budgets 124
- performance-enhancing risks, *see* properties
- performance measurement 104, 123–47
- assigning credit to functions 126, 134–36
- establishing causality 126, 130–34
- measuring prevention 126, 136–43
- outputs and outcomes 77–78, 125–26, 131
- phases of learning 150–57
- port-running (as drug-smuggling method) 57–60, 85, 193–94
- poverty 34–35, 81–82, 95–96
- Power, Michael 217
- Pradhan, Sanjay 255
- probabilistic analysis, *see* risk
- problem-oriented policing 97–98
- problem-solving
- interface with functions and processes 162–65
- managerial infrastructure 160–62
- protocol 157–60
- processes and process-management 49–55, 123
- properties of harms
- catastrophic 16, 146–47, 173, 217–26
- conscious opponents 15, 146, 172–73, 199–214
- equilibrium conditions, 173, 231–40
- high-level 16, 172, 175–76
- hostile settings for control task 16, 173, 177–78
- invisible 16, 146, 171–74, 181–97
- performance-enhancing 16, 173, 243–51
- slow-acting 147, 173, 176–77
- prostitution 64–65, 86, 89
- protocol, for problem-solving 157–60
- Puerto Rico 234–40
- qualities of harms, *see* *properties of harms*
- Quality of Life Congress* 238–39
- randomness, role of 187
- risk
- analysis 12, 94–98, 106–110
- assessments, factors affecting 12–14
- communication 12, 38–39
- concentrations, organizing around 47–69, 76–79
- control 12
- literature 10–11, 17
- management 10, 12
