Cambridge University Press has no responsibility for the persistence or
accuracy of URLs for external or third-party internet websites referred to
in this publication, and does not guarantee that any content on such
web sites is or will remain, accurate or appropriate.

Every effort has been made in preparing this publication to provide accurate and up-to-date information which is in accord
with accepted standards and practice at the time of publication. Although case histories are drawn from actual cases, every
effort has been made to disguise the identities of the individuals involved. Nevertheless, the authors, editors and publishers
can make no warranties that the information contained herein is totally free from error, not least because clinical standards
are constantly changing through research and regulation. The authors, editors and publishers therefore disclaim all liability for
direct or consequential damages resulting from the use of material contained in this publication. Readers are strongly advised
to pay careful attention to information provided by the manufacturer of any drugs or equipment that they plan to use.
