Papanicolaou, Andrew C.

Clinical magnetoencephalography and magnetic source imaging / Andrew C. Papanicolaou.
p. ; cm.
Includes bibliographical references and index.
ISBN 978-0-521-87375-8 (hardback)
1. Magnetoencephalography. 2. Magnetic resonance imaging. I. Title.
[DNLM: 1. Magnetoencephalography – methods. 2. Brain Mapping – methods. 3. Evoked
Potentials – physiology. 4. Magnetic Resonance Imaging – methods. 5. Nervous System
Diseases – diagnosis. WL 141 P213c 2009]
RC386.6.M36P37 2009
616.07'548 – dc22 2009014243

ISBN 978-0-521-87375-8 hardback

Every effort has been made in preparing this publication to provide accurate and up-to-date information which is in accord with accepted standards and practice at the time of publication. Although case histories are drawn from actual cases, every effort has been made to disguise the identities of the individuals involved. Nevertheless, the authors, editors and publishers can make no warranties that the information contained herein is totally free from error, not least because clinical standards are constantly changing through research and regulation. The authors, editors and publishers therefore disclaim all liability for direct or consequential damages resulting from the use of material contained in this publication. Readers are strongly advised to pay careful attention to information provided by the manufacturer of any drugs or equipment that they plan to use.
