aluminium and silica solubility 123
Amazon Basin see also Roraima
silica load in streams 130
amorphous silica 134
amphitheatres 83–87, 196, 199
Andes Mountains 247
angle of repose of debris 81, 224
Antarctica 80, 127, 147, 234, 237, 239–241
anticlinal valleys 253
Appalachians, eastern USA 19, 39, 82, 205, 252–253
apses see also alcoves 101
aquifer see also nappes 162
aquifer 69, 146, 209
arches see also natural bridges 88, 101, 102–108
Ardingly Sandstone, England 25
arenization 115–117, 143
arenites 20, 226
arkosic 29
quartz 26, 33, 42
volcanic 28
arkose sandstone 29, 32, 91
Arnhemland, Australia see also Kombolgie Sandstone
authigenic quartz 134
Auyán-tepui, Venezuela 165, 170, 202
Aztec Sandstone, USA 64, 145, 150, 267
banding on outcrops 12
bare rock surfaces see also slickrock slopes 181–182
basal sapping 28, 30, 81, 84
basalt dating 208, 227, 228
Bashkirtia, Russia 167
bedforms in streams see also potholes; flute marks; pool and riffle morphology; quarrying of blocks; vortices 195
bedrock profiles (thalwegs) 202, 205–208, 213–214
benches see also stepped slopes 29, 40, 41, 95, 213, 219, 254
biochemical weathering 214
biofilms 127
bioturbation 185
bioweathering 124–127, 180, 185
Black Forest, Germany 233
block gliding 73–76
block sliding 66, 68–71
Blue Mountains, Australia see also Three Sisters 57, 181, 194, 249
Book Cliffs, USA 45–47
Borkou, Saharan Africa see Tassili
Borneo 216
breached anticline see also topographic inversion 252, 254
Britain see also Millstone Grit; Ardingley, New Red, Old Red and Torridonian Sandstones 156, 167, 233
Brooks Range, Alaska 253–255, 269
Bungle Bungle Range, Australia see also Three Sisters 57, 181, 194, 249
Bungaree Range, Australia 5, 82, 97, 121, 127, 143, 178, 195, 199
buttressing 60, 80, 95
calcareous sandstones see also aeolianite 114, 167
canyons 30
capillary flow 147
carbonate weathering in sandstones see also aeolianite; calcareous sandstones 145
Carnavon Range, Australia 208–209, 223
Carpathian Mountains, Poland 73, 156
case-hardening 12, 148, 150–151, 180
Castlegate Sandstone, USA 45–47
Catalan Range, Spain 36, 246
Cataract Canyon, Colorado River, USA 74
cavernous weathering (tafoni) 99, 143–146, 181, 222, 241
caves and speleothems 134
caves see also cavernous weathering formed by block movement 73, 76 in karst landscapes 116, 161–162, 237

299
cement, cementation 19, 31, 102, 114, 184
and rock fracturing 63
Chaco Bason, Bolivia 38
Chad 221
chalcedony 134, 135
chemical erosion rates for major rock types 113
Chimanimani Highlands, Zimbabwe 167
Chimneystack Rock, Australia 77
chronology see also basalt dating 76
Chuska Mountains, USA 73
Clarens Sandstone, South Africa 80, 127, 156, 226
classification of sandstones 14
engineering 22
geological 20–22
clastic pipes 31
clast size 17
clay
and mass failure 58, 72
and rock strength 61
expansive 113, 148
cliffs, cliffsines 28, 41, 69, 215, 226, 231, 261, 262
climatic classification of landforms see also methodology 9
climatic geomorphology 210, 216, 242–243
and the evolution of Uluru 99
Cockburn Sandstone, Australia see also Kimberleys 5, 9
core-softening 151
creeks 62, 75
cristobalite 134
critical partings 94–95
cross-bedding 18, 26, 88–90, 231
cryoturbation 238
crystal boundary see also grain boundaries; quartz overgrowths 116, 130
cuestas 253
Czech Republic 179
dambos see also upland swamps 188
Dana, J. D. 1
Danxia landform, China 14, 223–226
Darwin, Charles I
debris dams 186
decantation forms 159
deleen (dells) see also upland swamps 188
diagnosis and weathering 114
dip of bedding 235, 253, 263
and slope form, 100
dolines see also furnas, simas 170–171
erosion and gravity tectonics 267
equilibrium slopes 79
equilibrium surfaces 2
erosion rate 255
facades change 45, 71, 73, 75, 80, 208, 213, 251, 254
