Part I Identifying the Causes and Consequences of Disordered Substance Use 1

1 The Biopsychosocial Perspective and Research Methods for Investigation of Substance Use Disorders	3
Learning Objectives	4
Introductory Vignette: Losing a Good Team Member	4
Use and Misuse of Psychoactive Drugs	5
Substance Use Disorders	8
Identifying Causes and Consequences of Substance Use Disorders	13
The Biopsychosocial Explanation of Substance Use Disorders	26
Chapter Summary	29
Review Exercises	30
Key Terms	31
2 Diagnosis of Substance Use Disorders	32
Learning Objectives	33
Introductory Vignette: Martin's Diagnosis	33
Introduction	35
Essential Features of Substance Use Disorders	38
Diagnostic Systems	41
Heterogeneity of Substance Use Disorders	52
Instruments and Procedures for Screening and Diagnosis	55
Chapter Summary	64
Review Exercises	66
Key Terms	66

3	The Disease Concept	67
	Learning Objectives	68
	Introductory Vignette: A Good Person with a Bad Disease?	68
	Introduction	69
	The Disease Concept of Substance Use Disorders	70
	Historical Perspective of the Disease Concept	73
	Disease Concept of Addiction in the Early Twenty-First Century	77
	Objections to and Limitations of the Disease Concept	79
	Chapter Summary	91
	Review Exercises	92
	Key Terms	92
	Part II The Neuroscience of Substance Use Disorders	93
4	Psychopharmacology: Drug Effects on Brain Function	95
	Learning Objectives	96
	Introductory Vignette: “I Want a New Drug”	96
	Introduction	97
	Neurons, Neurotransmitters, and Receptors	97
	Drug Interaction with Brain and Body Function	106
	Concluding Comments	117
	Chapter Summary	117
	Review Exercises	119
	Key Terms	119
5	Brain Function and Substance Use Disorders	120
	Learning Objectives	121
	Introductory Vignette: Sally Quits Using Cocaine ... Until She Starts Again	121
	Introduction	122
	Biological Factors and SUD	123
	Stages and Essential Features of Addiction	124
	Long-Term Memory, Gene Expression, and Addiction	153
	Chapter Summary	159
	Review Exercises	160
	Key Terms	161
	Part III Biopsychosocial Risk Factors	163
6	Genetic Influence on Substance Use Disorders	165
	Learning Objectives	166
	Introductory Vignette: Russell Cons His Mother – Again	166

	Contents	xi
Introduction	167	
Epidemiological Studies	170	
What Is Inherited to Increase SUD Vulnerability?	176	
SUD Vulnerability and the Genome	191	
Interaction of Genetic and Environmental Factors	208	
Chapter Summary	209	
Review Exercises	211	
Key Terms	212	
7 Behavioral, Cognitive, and Social Factors Promoting SUD	213	
Learning Objectives	214	
Introductory Vignette: The Power of an Immediate Reward	215	
Introduction	216	
Behavioral Theory of SUD	218	
Cognition and SUD	232	
Social and Cultural Influences on SUD	245	
Progression of Addictive Behavior	248	
SUD Risk Factors	251	
Chapter Summary	251	
Review Exercises	253	
Key Terms	254	
8 Psychiatric Disorders, Personality, and Developmental Factors	255	
Learning Objectives	256	
Introductory Vignette: Preparing for the Job Interview	257	
Introduction	257	
Interaction between SUD and Other Psychiatric Disorders	258	
Personality Theory: Factors, Traits, and SUD	275	
Impulsivity and SUD	281	
Drug Use and SUD in Adolescence	287	
Conclusions about the Etiology of Substance Use Disorders	298	
Chapter Summary	299	
Review Exercises	300	
Key Terms	301	
Part IV Use Disorders with Specific Drugs	303	
9 Alcohol: A Dangerous Drug	305	
Learning Objectives	306	
Introductory Vignette: Selling the Proposal	306	
Introduction	307	
Alcohol in the Brain and Body	310	

Behavioral and Cognitive Effects	318
Effects of Context and Expectancy	331
Concurrent Use of Alcohol and Other Addictive Drugs	333
Chapter Summary	336
Review Exercises	337
Key Terms	338
10 Alcohol Use Disorders	339
Learning Objectives	340
Introductory Vignette: The AA Meeting	341
Introduction	341
Development of Alcohol Use Disorders	346
Types of Alcohol Use Disorder	353
Alcohol Use Disorders in Women	357
Medical Problems from Chronic Alcohol Consumption	362
Medications for Treatment of Alcohol Use Disorder	375
Chapter Summary	376
Review Exercises	378
Key Terms	378
11 Tobacco Use and Nicotine Addiction	380
Learning Objectives	381
Introductory Vignette: Thinking about Stopping Smoking	382
Introduction	383
Tobacco Use in the United States	385
The Behavior of Addictive Tobacco Use	388
Determining the Incidence of Nicotine Dependence/Addiction	390
Nicotine in the Brain and Body	394
The Nicotine Withdrawal Syndrome	399
Psychiatric Disorders and Personality Factors	406
Smoking in Women	412
Smoking in Adolescents	414
Genetics of Smoking and Nicotine Dependence	417
Toxic Consequences of Tobacco Use	419
Is Tobacco the Most Addictive Substance?	422
Electronic Nicotine Delivery Systems	425
Stopping Smoking	428
Chapter Summary	431
Review Exercises	433
Key Terms	434

	Contents	xiii
12 Cannabis Use Disorders	436	
Learning Objectives	437	
Introductory Vignette: Getting High and Getting Down to Work?	438	
Introduction	438	
Cannabis and THC	439	
Some History of Cannabis Use	440	
Prevalence and Methods of Cannabis Use	443	
THC in the Brain and Body	445	
Acute Effects of Cannabis	449	
Cannabis Use Disorders	459	
Cannabis Use by Adolescents	466	
Long-Term Consequences of Heavy Cannabis Use	469	
Illicit Use of Synthetic Cannabinoids	476	
Medical Use of Cannabis and Cannabinoids	477	
Treatment of Cannabis Use Disorders	480	
Chapter Summary	480	
Review Exercises	482	
Key Terms	483	
13 Use Disorders of Cocaine and Methamphetamine	484	
Learning Objectives	485	
Introductory Vignette: The Pharmacist Dispenses Drugs	486	
Introduction	486	
Stimulant Drugs	487	
Cocaine and Amphetamine Use: A Brief History	487	
Stimulant Drugs in the Brain and Body	493	
Acute Effects	496	
Stimulant Use Disorders	503	
Consequences of Heavy Cocaine or Methamphetamine Use	512	
Withdrawal from Heavy Stimulant Use	527	
MDMA (Ecstasy, Molly)	530	
Treatment of Stimulant Addiction	533	
Chapter Summary	535	
Review Exercises	537	
Key Terms	538	
14 Opioid Use Disorders	539	
Learning Objectives	540	
Introductory Vignette: Anticipation	541	
Introduction	541	

Some History of Opioid Use and Misuse	542
Opioid Drugs in the Brain and Body	549
Subjective, Physiological, and Behavioral Effects	557
Consequences of Long-Term Opioid Use	560
Opioid Misuse and Use Disorders	564
Management of Opioid Addiction via Drug Treatment	585
Chapter Summary	589
Review Exercises	591
Key Terms	592
15 Tranquilizers and Sedative Use Disorders	593
Learning Objectives	594
Introductory Vignette: Doctor-Shopping for Xanax	594
Introduction	595
Drug Treatment of Anxiety since 1900	596
Misuse of Anxiolytic and Sedative-Hypnotic Drugs	597
Barbiturates	598
Benzodiazepines	601
Benzodiazepine-Receptor Agonists (BZRA)	612
Treatment of Sedative Use Disorders	617
Chapter Summary	617
Review Exercises	619
Key Terms	619
Part V Treatment of Substance Use Disorders	621
16 Treatment of Substance Use Disorders	623
Learning Objectives	624
Introductory Vignette: The Almost-Intervention	625
Introduction	626
Some History of Addiction Treatment	628
Treatment-Relevant Features of SUD	635
Untreated Remission of SUD	640
Mutual-Assistance Groups	644
Treatment of SUD by Professionals	652
Nonabstinent Remission and Recovery	669
Treatment Effectiveness	672
Proposed Improvements in SUD Treatment	674

	Contents	xv
Chapter Summary	675	
Review Exercises	677	
Key Terms	678	
References	679	
Index	792
