 Greenland ice cores, 231

heteroclinic orbit, 29  
 hidden Markov model (HMM), 161  
 homoclinic explosion, 31  
 homoclinic orbit, 29  
 horrendogram of climate, 6  
 hyperbolic fixed point, 19  
 hypothesis testing, 90

improper node, 14  
 independent increments, 40  
 instrumental record, 2  
 integral balances, 130  
 intermittency, 158  
 Interstadial, 232  
 interstadial, 233  
 intraseasonal oscillations, 132, 165  
 invariant measure, 72  
 invariant set, 66  
 Itô exponential, 43  
 Itô integral, 41  
 Itô SDE, 46

Jacobian matrix, 13  
 Jordan form, 14, 20

Kalman filter, 325

Langevin equation, 48  
 linear stability, 13  
 Lorenz attractor, 31  
 Lorenz butterfly effect, 301  
 Lyapunov diagram, 158  
 Lyapunov exponent, 33, 76, 305  
 Lyapunov vector, 320

M-forcing, 283  
 Madden-Julian oscillation, 185  
 Markov chain, 165  
 Markov-process, 52  
 mean escape time, 57  
 mechanistic indicator, 125  
 Milstein scheme, 60  
 mixed SST/ocean dynamics modes, 179  
 model traits, 116  
 monodromy matrix, 26  
 Morlet wavelet, 102  
 moving average filter, 86  
 moving average process, 92  
 multi-model ensemble, 306  
 multiplicative noise, 49  
 mutual information, 106

Neimark-Sacker bifurcation, 27  
 nonautonomous dynamical system, 12  
 noncatastrophic loss of stability, 22  
 nonhyperbolic fixed point, 19  
 non-normal growth, 17, 219  
 non-normal matrix, 17  
 normal distribution, 37  
 normal form, 20

*Index*

normal modes, 13  
 number of degrees of freedom, 11

orbital parameters  
 eccentricity, 273  
 precession, 273
