NEONATAL AND INFANT EMERGENCIES

Caring for newborns and infants in the first year of life can be anxiety-provoking and challenging, especially for the emergency physician. This book was designed to address the most common complaints that an emergency provider may have to evaluate and treat. *Neonatal and Infant Emergencies* is divided into three sections for quick access to a variety of medical conditions. Section I covers the basics of neonate care in the emergency department and includes the general exam, airway management and sedation. Section II focuses on specific common complaints, such as failure to thrive, fever and seizures. Section III covers management of specific systems, including cardiology, dermatology and toxicology. The appendixes include handy pediatric formulas, immunization schedules and easy-to-use algorithms and tables. This book will serve as a practical resource for a wide range of health providers, from medical students, residents and Fellows to attending physicians.

Ghazala Q. Sharieff, MD, is Medical Director of the Rady Children's Hospital Emergency Care Center and Associate Clinical Professor, University of California, San Diego. She also serves as the Director of Pediatric Emergency Medicine for Palomar-Pomerado Health System and California Emergency Physicians.

Maureen McCollough, MD, is Associate Professor of Pediatrics and Emergency Medicine at the University of Southern California Keck School of Medicine and Director of the Pediatric Emergency Department, Department of Pediatrics. She is also Medical Director, Department of Emergency Medicine at Los Angeles County–USC Medical Center, Los Angeles, California.

To my husband, Javaid; my beautiful daughters, Mariyah and Aleena; and my friends and family who give me the inspiration and confidence to pursue dreams and transform them into reality – no matter how far out of reach they may seem.

Ghazala Q. Sharieff, MD

To my husband, Mike, and my daughters, Molly and Maggie . . . you are my life. To my parents, who inspired me to find a career that I would love . . . I hope that you are proud. To the providers of the world who care for children each and every day . . . this is for you.
