Every effort has been made in preparing this book to provide  
accurate and up-to-date information which is in accord with accepted  
standards and practice at the time of publication. Although case  
histories are drawn from actual cases, every effort has been made to  
disguise the identities of the individuals involved. Nevertheless, the  
authors, editors and publishers can make no warranties that the  
information contained herein is totally free from error, not least  
because clinical standards are constantly changing through research and  
regulation. The authors, editors and publishers therefore disclaim all  
liability for direct or consequential damages resulting from the use of  
material contained in this book. Readers are strongly advised to pay  
careful attention to information provided by the manufacturer of any
